## STRIKE HONORS EASY

THE AMALGAMATED ASSOCIATION CLOSES STEEL PLANT AT NEWCASTLE.

EMPLOYERS OFFSET THIS

Trust Succeeds in Partially Breaking the Embargo on the Clark Mill in Pittsburg—Neither Side Exults or Shows Discouragement—The Company Will at Once Proceed to Systematically Open Its Closed Plants.

Pittsburg, Aug. 8.—In the big steel strike honors are easy in this section. The Amalgamated Association succeeded in closing down the big steel plant at Newcastle and the manufacturers partially broke the strike at the Clark mill in this city. Neither side is exulting, nor is there any expression of discouragement. Victory or defeat of either at this early stage of the warfare can have but little effect beyond indicating the probable line of battle to be pursued by each. Up to this hour not the slightest trouble has occurred at any point in this immediate territory and Amalgamated men are correspondingly happy, because this condition would seem to be the association's new departure in the handling of strikes. The quiet waiting of the strikers may be one of the surprises hinted at by the national officers. From one or two points the strikers are reported as restless and eager for action, but so far have kept faith with their leaders and refrained from committing any breach of the peace. Recorder A. M. Brown does not anticipate that there will be any disorder in Pittsburg on account of the steel strike. If there should be disorder, he says, it will be the duty of the bureau of police to suppress it and arrest all who are concerned in it. Recorder Brown incidentally remarked that there

Would Be No Discrimination between strikers and employers and that all are equal under the law and will be so treated.

The United States Steel corporation, it was learned from an official source, will at once proceed in a systematic manner to start its closed mills, making the non-union plants of the Klametstik valley the spot where strike breakers will be trained and then sent out to the mills that are closed. So far as President Schwab is concerned

no overtures will be made by the trust to the workers. In a talk with a Pittsburg man in New York he said: "We have made our last proposition to the Amalgamated Association and will now proceed to start our works."

President Shaffer makes this counter statement: "The next proposition must come from the United States Steel corporation officials."

Thus the two executives stand. It seems as if only outside efforts can bring them together.

The trust officials have decided to go ahead slowly in the matter of starting mills and to do so with as little publicity as possible.

### IN A VACILLATING MOOD.

Tampa Strikers Seem to Be at Sea Without Their Leaders.

Tampa, Fla., Aug. 8.—The Resistance Union of Cigarmakers has changed its position with relation to the strike several times during the day. In the morning the strikers were taking an obligation to leave Tampa in a body and never return under any circumstances. In the afternoon they issued a statement saying that if their leaders returned to them they would then be ready to arbitrate and settle the trouble. They declare they will do nothing until this is done. Citizens say they will have a long wait. It seems to be positively settled that the deported strike leaders are beyond reach and this is impressing itself upon the strikers' minds. La Resistencia has been telegraphing to Key West and New York all day trying to get attorneys to come here and take up their case, but what result is not known. This was on the belief that the men were in jail. From their vacillating mood it is inferred the strikers will be ready to return to work at an early date. Tampa has served notice that if they desired to leave they could do so without objection being raised.

### MANIFEST GREAT ACTIVITY.

Chinese Arsenal Turning Out Smokeless Powder and Rifles.

London, Aug. 6.—"An American official named Brill, who recently returned from China, where he had been in the government service, has been interviewed here," says the Calcutta correspondent of The Times, "and he asserts that there is great activity in the arsenals and factories in Fu Chau, Han-Yang, Nankin and Chen Tsu, which are turning out smokeless powder and hundreds of rifles daily. He declares also that the Ho-Nan army is being drilled by Germans and Japanese."

## BURNED AT THE STAKE

NEGRO RAVISHER CREMATED BY A MOB NEAR ENTERPRISE, ALA.

### BOTH WHITES AND BLACKS

Members of the Fiend's Own Race Participate in His Taking Off. Crowd Shows No Sympathy for the Frantic Wretch—Five Hundred People Watch the Scene Until the Body Is Entirely Consumed.

Birmingham, Ala., Aug. 8.—With agonizing screams and his eyes bulging from his head John Wesley Pennington, a negro, was burned at the stake near Enterprise, Ala., before a crowd of 500 enraged and determined citizens of Coffee county. The mob was composed of both whites and blacks, and though the suffering wretch pleaded for mercy and frantically endeavored to break the chains that tightly bound him not a trace of sympathy was shown on the faces that peered at him through the flames. Pennington had committed a brutal assault upon Mrs. J. C. Davis, the wife of one of the most prominent farmers of Coffee county, and confessed his guilt. The crime was committed while Mrs. Davis was gathering vegetables in her garden. After accomplishing his purpose the negro fled through the woods near by. Mrs. Davis crawled to the house and told her husband what had happened. A large posse was quickly organized with bloodhounds and they chased the negro until he was captured in a swamp. Pennington was bound hand and foot and taken back to the Davis home for identification. Word of the assault on Mrs. Davis had been sent by runners for miles around Enterprise and every farmer in the neighborhood had joined in the search. Some of them were too late to join the pursuing party and went to Davis' home and quietly awaited their return. There is not a telegraph office in Coffee county. The messenger traveled fast and when the posse arrived with Pennington there were at least 500 persons gathered near the Davis residence. Mrs. Davis immediately recognized him and the negro broke down and wept. He

Admitted Committing the Crime and though he pleaded for mercy with cries of terror the trembling man was dragged from the house and into the woods, where the crowd had gathered. Evidently expecting the confession several of the citizens had already driven an iron pipe in the ground and as the men approached with Pennington both whites and blacks were piling brushwood around the stake. The negro now saw his doom and with a scream of terror fell to the ground in a faint. He was quickly revived and dragged to the stake, while the crowd stood silently by. The frightened man was limp and had to be held up while the chains were fastened around his neck and body. When all was ready the cry was given and the crowd stood back. A match was applied to the pile and soon oil to feed upon the tiny flame soon burst into a roaring fire. The terrified negro again pleaded for mercy in the most agonizing tones and prayed to God that those around him might perish. He then called upon the Maker for forgiveness and as the flames leaped up and encircled his neck an unearthly shriek was heard and the man's eyes had almost bulged out of the sockets. By this time the fire had gained such headway that nothing could be seen except a wriggling motion in the center of the fire. A deathly silence followed and in a few minutes the flames had sufficiently subsided to see that Pennington's head had fallen forward and hung limp over the iron chain. The body was quickly consumed and all of Pennington that remained was a pile of ashes. The crowd then quietly dispersed.

### SIGNING THE PROTOCOL.

Delay Due to Difficulty in Adjusting the Tariff.

Washington, Aug. 8.—It is the understanding at the state department that the delay in signing the protocol at Peking is probably due to the difficulty in adjusting the tariff on an ad valorem instead of a specific basis and also in arranging the details for the co-operation of the military branch in the restrictions on the importation of firearms.

Our government has received representations made by Pacific coast commercial bodies saying that the proposed 5 per cent duty on a gold basis will work serious hardship on our trade in flour going into the Orient.

### FOUGHT LIKE MADMEN.

Negro Suspect Arrested and Another Killed at Charleston, S. C.

Charleston, S. C., Aug. 8.—After

hand to hand struggle with the police a negro giving the name of Mike Washington was captured. His brother, who claimed to be George Washington, was killed. Lieutenant Dunn was mortally wounded and Lieutenant McManus injured in the fight. The negro in jail answers well to the description of the slayer of Chief of Police Jones of Shelby, N. C., who has not yet been identified positively. The negroes were heavily armed and fought like madmen.

### LAST MOMENTS DETAILED.

Dowager Empress Frederick Died Holding the Kaiser's Hand.

Berlin, Aug. 8.—Some comment has been made in the press upon the fact that but few details of the last moments of Dowager Empress Frederick have been given to the public. The Frankfurter Zeitung now prints the following particulars:

Emperor William and the empress were at the bedside from 5:30 a. m. until the end. Frequently the emperor held his mother's hand warmly clasped. She was fully conscious until noon and suffering great agony. Then she gradually became unconscious. Soon after 6 p. m. the physicians gave a sign that dissolution was approaching. The emperor grasped her hand and held it until the last, the other members of the family kneeling silently around the bed.

### LOTS SELLING SLOWLY.

Scramble Expected at Lawton, O. T., Does Not Materialize.

Lawton, O. T., Aug. 8.—The auction sale of town lots is proving a tedious process and there is not such a scramble for them as was expected. Some of the purchasers are buying for speculation, while others are already erecting buildings.

Many persons are locating oil claims on the Wichita mountains. It was estimated that 2,000 persons had attempted to locate oil claims on the mountains. They have paid no attention to the government's reserve, which has exempted 58,000 acres, and practically the entire district will be thrown into controversy.

### The Bride Has a \$6,000,000 Dowry.

London, Aug. 8.—The Vienna correspondent of The Daily Express announces the engagement of Count Hippolyte Pallavicini to Miss Meta Richards, daughter of Bertram Richards of Philadelphia. It is reported that the bride will have a dowry of \$6,000,000.

### Prominent Colored Mason Dead.

Marshalltown, Ia., Aug. 8.—Joseph L. Woods of this city, deputy grand potentate Colored Scottish Rite Masons and Mystic Shrine of Iowa, Minnesota and Nebraska, and prominent in state colored Masonic circles, died at Waverly.

### VON WALTERSEE'S RETURN.

Event Quite Overshadowed by the Death of Empress Frederick.

Berlin, Aug. 8.—The return of Count von Waldersee from China has been quite overshadowed by the melancholy event at Cronberg. Countess von Waldersee went on board the Gera at Cuxhaven to greet the count and the Gera then ascended the Elbe to Brunswick. On the way Count von Waldersee bestowed the China medal upon the officers and crew of the steamship. The Columbia lay at Brunswick and the Columbia of the officers, including Admiral von Waldersee. The steamer Blankensee transferred Count von Waldersee and his staff to the Columbia, where they were greeted by Herr Ballin, president of the Hamburg-American Steamship company, and other directors of the line.

### CONFIDENT OF WINNING.

Mr. Aderhold Says Boers Are as Far From Defeat as a Year Ago.

Topeka, Kan., Aug. 8.—Thomas Aderhold reached his home here direct from the Transvaal, where for 18 months he has been ministering to the sick and wounded Boers as a Red Cross surgeon. He went to South Africa with the Irish-American hospital corps of Chicago. Mr. Aderhold says that the Boers are as far from defeat now, apparently, as a year ago, and that they are confident of winning. His return is due to being captured by the British and sent from the country. The English were very bitter at those aiding the Boers and only by persistent efforts by the American consul was Mr. Aderhold permitted to escape a term at St. Helena.

### Had Part of Express Robbery Booty.

Berlin, Aug. 8.—A man claiming to be E. C. Bolles of San Francisco, but who registered at the Kaiserhof as Bolles of Boston, was arrested for presenting at a branch of the Dresdener bank checks identified as part of the booty obtained by the robbery of the American Express company's office in Paris during the month of April last. Bolles claims he acquired the checks legitimately.

### Newspaper Correspondent Arrested.

Berlin, Aug. 8.—The Berliner Tageblatt announces that Wilhelm Meyerbach, its correspondent with the Boers, has been arrested by the British on a charge of espionage.

## GO-CARTS AND BABY CARRIAGES At COST

CASH or  
INSTALLMENTS.

## CUMMINS IS NOMINATED

THE DES MOINES MAN SELECTED BY IOWA REPUBLICANS FOR GOVERNOR.

### WINS ON THE FIRST BALLOT

Herriott for Lieutenant Governor, Weaver for Supreme Judge, Brown for Railroad Commissioner and Barrett for Superintendent of Public Instruction—Platform Endorses McKinley and Favors Tariff Revision.

Cedar Rapids, Ia., Aug. 8.—Governor, A. B. Cummins, Des Moines; Lieutenant governor, John Herriott, Stuart; judge of the supreme court, S. M. Weaver, Iowa Falls; railroad commissioner, E. C. Brown, Sheldon; superintendent of public instruction, R. C. Barrett, Osage.

With the above ticket the Republicans of Iowa will go into the next state campaign.

The Republican state convention was called to order at 11:15 a. m. by Chairman Weaver of the state central committee. The delegates arose when the Rev. S. R. McCormick of Cedar Rapids offered prayer. At the conclusion of the invocation Chairman Weaver introduced as the temporary chairman of the convention J. C. Davis of Mohawk. Chairman Davis, in assuming the chair, delivered an address which was well received and frequently interrupted by applause. After the appointment of various committees the convention adjourned until 2 o'clock.

The convention was called to order at 2:15. Chairman Davis called for the report of the committee on credentials, but that body was not ready to report and a delay ensued, which was enlivened by music by the band, songs by a glee club and speeches by Senators Dollivers and Allison and several members of the Iowa congressional delegation.

### Unfavorable to Cummins.

The committee on credentials reported that there were contests in the counties of Polk, Carroll and Jackson. In the county of Polk the report recommended that the full delegation be seated. This gave Cummins a full delegation from Polk county. In Jackson and Carroll counties the committee reported in favor of the anti-Cummins delegations. A minority report was submitted giving both Jackson and Carroll counties to Cummins and agreeing with the majority report on the Polk county delegation. The receipt of the minority report created an uproar, as both factions realized that upon the adoption of the majority or minority report would come the first true test of strength in the convention. The question was put to the convention in the form of a motion to adopt the minority report and a roll call by counties was ordered. The vote resulted in 873 ayes and 768 noes.

The committee on permanent organization recommended H. W. Byers of Shelby, a strong Cummins man, as permanent chairman, and the report was adopted.

### The Platform.

Chairman Byers called for the report of the committee on resolutions, which was unanimously adopted. A synopsis follows:

The Republicans of Iowa congratulate President McKinley on his reelection and rejoice in the manifold blessings resulting to the country therefrom; they congratulate the people of the country upon the prosperity that blesses every class and community; approve the work of the Fifty-sixth congress; oppose negro disfranchisement; endorse the protective tariff, but favor revision and reciprocity; favor anti-trust legislation; endorse the state's delegation in congress and the administration of Governor Shaw.

After adopting the platform the nomination of candidates followed, resulting as above. Mr. Cummins was named on the first ballot, the vote standing: Cummins 860, Trewin 369 1-2, Harriman 359 1-2, Conger 42, Herriott 8, Mahon 2.

Later Mr. Cummins appeared on the platform and in a short speech accepted the nomination.

The nomination of the other candidates quickly followed and the convention adjourned.

### HAS HAD ENOUGH OF IT.

"No More Corn Pools for Me," Says George H. Phillips.

Chicago, Aug. 8.—"No more corn pools for me," said George H. Phillips. "I knew that I was standing over a can of gunpowder all the time and it was only by the merest chance that I escaped total annihilation. I was forced into the May pool, but I won't be forced into another. They are too risky and not at all to my liking."

The corn king made this emphatic declaration apropos of a resolution against pools passed by the board of directors of the board of trade Tuesday.

### Fusion Agreed on in Nebraska.

Lincoln, Neb., Aug. 8.—At a meeting held by the Democratic, Populist and Silver Republican state central committees fusion of the three parties was practically agreed upon, the state conventions of all being fixed for Sept. 17 at Lincoln. W. J. Bryan addressed the Democratic and Populist committees and declared himself strongly for fusion.

### A WORLD WIDE TRUST.

Movement Under Way to Control the Planet's Window Glass Supply.

Pittsburg, Aug. 8.—The Times says: Another vast industrial combination, one of the greatest that has ever been planned, is evidently under way and two prominent Pittsburgers are taking a leading part in the consummation of the project that has for its object the placing in the power of one corporation the control of the world's supply of window glass.

The proposed combination is to take in all of the window glass manufacturers of the world. In effect the business will be conducted from Pittsburg and the nucleus of the organization will be the American Window Glass company of this city. This company practically controls the window glass business of the United States, and the only factories in Europe that amount to anything are located in Belgium. A combination of these Belgian factories is now under way, and as one of the men accredited with the movement is one of Pittsburg's leading financiers, one who has participated in similar undertakings, it is safe to say the present deal will be consummated. The Pittsburgers who are consummating the deal are President Chambers and Vice President Mullins of the American Window Glass company. They left this city for Europe about 10 days ago.

### Unfavorable to Cummins.

The committee on credentials reported that there were contests in the counties of Polk, Carroll and Jackson. In the county of Polk the report recommended that the full delegation be seated. This gave Cummins a full delegation from Polk county. In Jackson and Carroll counties the committee reported in favor of the anti-Cummins delegations. A minority report was submitted giving both Jackson and Carroll counties to Cummins and agreeing with the majority report on the Polk county delegation. The receipt of the minority report created an uproar, as both factions realized that upon the adoption of the majority or minority report would come the first true test of strength in the convention. The question was put to the convention in the form of a motion to adopt the minority report and a roll call by counties was ordered. The vote resulted in 873 ayes and 768 noes.

The committee on permanent organization recommended H. W. Byers of Shelby, a strong Cummins man, as permanent chairman, and the report was adopted.

### The Platform.

Chairman Byers called for the report of the committee on resolutions, which was unanimously adopted. A synopsis follows:

The Republicans of Iowa congratulate President McKinley on his reelection and rejoice in the manifold blessings resulting to the country therefrom; they congratulate the people of the country upon the prosperity that blesses every class and community; approve the work of the Fifty-sixth congress; oppose negro disfranchisement; endorse the protective tariff, but favor revision and reciprocity; favor anti-trust legislation; endorse the state's delegation in congress and the administration of Governor Shaw.

After adopting the platform the nomination of candidates followed, resulting as above. Mr. Cummins was named on the first ballot, the vote standing: Cummins 860, Trewin 369 1-2, Harriman 359 1-2, Conger 42, Herriott 8, Mahon 2.

Later Mr. Cummins appeared on the platform and in a short speech accepted the nomination.

The nomination of the other candidates quickly followed and the convention adjourned.

### HAS HAD ENOUGH OF IT.

"No More Corn Pools for Me," Says George H. Phillips.

Chicago, Aug. 8.—"No more corn pools for me," said George H. Phillips. "I knew that I was standing over a can of gunpowder all the time and it was only by the merest chance that I escaped total annihilation. I was forced into the May pool, but I won't be forced into another. They are too risky and not at all to my liking."

The corn king made this emphatic declaration apropos of a resolution directed pools passed by the board of directors of the board of trade Tuesday.

### Fusion Agreed on in Nebraska.

Lincoln, Neb., Aug. 8.—At a meeting held by the Democratic, Populist and Silver Republican state central committees fusion of the three parties was practically agreed upon, the state conventions of all being fixed for Sept. 17 at Lincoln. W. J. Bryan addressed the Democratic and Populist committees and declared himself strongly for fusion.

### A WORLD WIDE TRUST.

Movement Under Way to Control the Planet's Window Glass Supply.

Pittsburg, Aug. 8.—The Times says: Another vast industrial combination, one of the greatest that has ever been planned, is evidently under way and two prominent Pittsburgers are taking a leading part in the consummation of the project that has for its object the placing in the power of one corporation the control of the world's supply of window glass.

The proposed combination is to take in all of the window glass manufacturers of the world. In effect the business will be conducted from Pittsburg and the nucleus of the organization will be the American Window Glass company of this city. This company practically controls the window glass business of the United States, and the only factories in Europe that amount to anything are located in Belgium. A combination of these Belgian factories is now under way, and as one of the men accredited with the movement is one of Pittsburg's leading financiers, one who has participated in similar undertakings, it is safe to say the present deal will be consummated. The Pittsburgers who are consummating the deal are President Chambers and Vice President Mullins of the American Window Glass company. They left this city for Europe about 10 days ago.

## STRIKE HONORS EASY

THE AMALGAMATED ASSOCIATION CLOSES STEEL PLANT AT NEWCASTLE.

EMPLOYERS OFFSET THIS

Trust Succeeds in Partially Breaking the Embargo on the Clark Mill in Pittsburgh—Neither Side Exults or Shows Discouragement—The Company Will at Once Proceed to Systematically Open Its Closed Plants.

Pittsburg, Aug. 8.—In the big steel strike honors are easy in this section. The Amalgamated Association succeeded in closing down the big steel plant at Newcastle and the manufacturers partially broke the strike at the Clark mill in this city. Neither side is exulting, nor is there any expression of discouragement. Victory or defeat of either at this early stage of the warfare can have but little effect beyond indicating the probable line of battle to be pursued by each. Up to this hour not the slightest trouble has occurred at any point in this immediate territory and Amalgamated men are correspondingly happy, because this condition would seem to be the association's new departure in the handling of strikes. The quiet waiting of the strikers may be one of the surprises hinted at by the national officers. From one or two points the strikers are reported as restless and eager for action, but so far have kept faith with their leaders and refrained from committing any breach of the peace. Recorder A. M. Brown does not anticipate that there will be any disorder in Pittsburgh on account of the steel strike. If there should be disorder, he says, it will be the duty of the bureau of police to suppress it and arrest all who are concerned in it. Recorder Brown incidentally remarked that there

Would Be No Discrimination between strikers and employers and that all are equal under the law and will be so treated.

The United States Steel corporation, it was learned from an official source, will at once proceed in a systematic manner to start its closed mills, making the non-union plants of the Klametlik valley the spot where strike breakers will be trained and then sent out to the mills that are closed. So far as President Schwab is concerned

no overtures will be made by the trust to the workers. In a talk with a Pittsburgh man in New York he said: "We have made our last proposition to the Amalgamated Association and will now proceed to start our works."

President Shaffer makes this counter statement: "The next proposition must come from the United States Steel corporation officials."

Thus the two executives stand. It seems as if only outside efforts can bring them together.

The trust officials have decided to go ahead slowly in the matter of starting mills and to do so with as little publicity as possible.

### IN A VACILLATING MOOD.

Tampa Striker Seem to Be at Sea Without Their Leaders.

Tampa, Fla., Aug. 8.—The Resistance Union of Cigarmakers has changed its position with relation to the strike several times during the day. In the morning the strikers were taking an obligation to leave Tampa in a body and never return under any circumstances. In the afternoon they issued a statement saying that if their leaders returned to them they would then be ready to arbitrate and settle the trouble. They declare they will do nothing until this is done. Citizens say they will have a long wait. It seems to be positively settled that the deported strike leaders are beyond reach and this is impressing itself upon the strikers' minds. La Resistance has been telegraphing to Key West and New York all day trying to get attorneys to come here and take up their case, but what result is not known. This was on the belief that the men were in jail. From their vacillating mood it is inferred the strikers will be ready to return to work at an early date. Tampa has served notice that if they desired to leave they could do so without objection being raised.

### MANIFEST GREAT ACTIVITY.

Chinese Arsenal Turning Out Smokeless Powder and Rifles.

London, Aug. 6.—"An American official named Brill, who recently returned from China, where he had been in the government service, has been interviewed here," says the Calcutta correspondent of The Times, "and he asserts that there is great activity in the arsenals and factories in Fu Chau, Han-Yang, Nankin and Chen Tu, which are turning out smokeless powder and hundreds of rifles daily. He declares also that the Ho-Nan army is being drilled by Germans and Japanese."

## BURNED AT THE STAKE

NEGRO RAVISHER CREMATED BY A MOB NEAR ENTERPRISE, ALA.

BOTH WHITES AND BLACKS

Members of the Fiend's Own Race Participate in His Taking Off. Crowd Shows No Sympathy for the Frantic Wretch—Five Hundred People Watch the Scene Until the Body Is Entirely Consumed.

Birmingham, Ala., Aug. 8.—With agonizing screams and his eyes bulging from his head John Wesley Pennington, a negro, was burned at the stake near Enterprise, Ala., before a crowd of 500 enraged and determined citizens of Coffee county. The mob was composed of both whites and blacks, and though the suffering wretch pleaded for mercy and frantically endeavored to break the chains that tightly bound him not a trace of sympathy was shown on the faces that peered at him through the flames. Pennington had committed a brutal assault upon Mrs. J. C. Davis, the wife of one of the most prominent farmers of Coffee county, and confessed his guilt. The crime was committed while Mrs. Davis was gathering vegetables in her garden. After accomplishing his purpose the negro fled through the woods near by. Mrs. Davis crawled to the house and told her husband what had happened. A large posse was quickly organized with bloodhounds and they chased the negro until he was captured in a swamp. Pennington was bound hand and foot and taken back to the Davis home for identification. Word of the assault on Mrs. Davis had been sent by runners for miles around Enterprise and every farmer in the neighborhood had joined in the search. Some of them were too late to join the pursuing party and went to Davis' home and quietly awaited their return. There is not a telegraph office in Coffee county. The messenger traveled fast and when the posse arrived with Pennington there were at least 500 persons gathered near the Davis residence. Mrs. Davis immediately recognized him and the negro broke down and wept. He

### Admitted Committing the Crime

and though he pleaded for mercy with cries of terror the trembling man was dragged from the house and into the woods, where the crowd had gathered. Evidently expecting the confession several of the citizens had already driven an iron pipe in the ground and as the men approached with Pennington both whites and blacks were piling brushwood around the stake. The negro now saw his doom and with a scream of terror fell to the ground in a faint. He was quickly revived and dragged to the stake, while the crowd stood silently by. The frightened man was limp and had to be held up while the chains were fastened around his neck and body. When all was ready the cry was given and the crowd stood back. A match was applied to the pile and with oil to feed upon the tiny flame soon burst into a roaring fire. The terrified negro again pleaded for mercy in the most agonizing tones and prayed to God that those around him might perish. He then called upon the Maker for forgiveness and as the flames leaped up and encircled his neck an unearthly shriek was heard and the man's eyes had almost bulged out of the sockets. By this time the fire had gained such headway that nothing could be seen except a wriggling motion in the center of the fire. A deathly silence followed and in a few minutes the flames had sufficiently subsided to see that Pennington's head had fallen forward and hung limp over the iron chain. The body was quickly consumed and all of Pennington that remained was a pile of ashes. The crowd then quietly dispersed.

### SIGNING THE PROTOCOL.

Delay Due to Difficulty in Adjusting the Tariff.

Washington, Aug. 8.—It is the understanding at the state department that the delay in signing the protocol at Peking is probably due to the difficulty in adjusting the tariff on an ad valorem instead of a specific basis and also in arranging the details for the co-operation of the military branch in the restrictions on the importation of firearms.

Our government has received representations made by Pacific coast commercial bodies saying that the proposed 5 per cent duty on a gold basis will work serious hardship on our trade in flour going into the Orient.

### FOUGHT LIKE MADMEN.

Negro Suspect Arrested and Another Killed at Charleston, S. C. Charleston, S. C., Aug. 8.—After

hand to hand struggle with the police a negro giving the name of Mike Washington was captured. His brother, who claimed to be George Washington, was killed. Lieutenant Dunn was mortally wounded and Lieutenant McManus injured in the fight. The negro in jail answers well to the description of the slayer of Chief of Police Jones of Shelby, N. C., who has not yet been identified positively. The negroes were heavily armed and fought like madmen.

### LAST MOMENTS DETAILED.

Dowager Empress Frederick Died Holding the Kaiser's Hand.

Berlin, Aug. 8.—Some comment has been made in the press upon the fact that but few details of the last moments of Dowager Empress Frederick have been given to the public. The Frankfurter Zeitung now prints the following particulars:

Emperor William and the empress were at the bedside from 5:30 a. m. until the end. Frequently the emperor held his mother's hand warmly clasped. She was fully conscious until noon and suffering great agony. Then she gradually became unconscious. Soon after 6 p. m. the physicians gave a sign that dissolution was approaching. The emperor grasped her hand and held it until the last, the other members of the family kneeling silently around the bed.

### LOTS SELLING SLOWLY.

Scramble Expected at Lawton, O. T., Does Not Materialize.

Lawton, O. T., Aug. 8.—The auction sale of town lots is proving a tedious process and there is not such a scramble for them as was expected. Some of the purchasers are buying for speculation, while others are already erecting buildings.

Many persons are locating oil claims on the Wichita mountains. It was estimated that 2,000 persons had attempted to locate oil claims on the mountains. They have paid no attention to the government's reserve, which has exempted 53,000 acres, and practically the entire district will be thrown into controversy.

### The Bride Has a \$6,000,000 Dowry.

London, Aug. 8.—The Vienna correspondent of The Daily Express announces the engagement of Count Hippolyte Pallavicini to Miss Metta Richards, daughter of Bertram Richards of Philadelphia. It is reported that the bride will have a dowry of \$6,000,000.

### Prominent Colored Mason Dead.

Marshalltown, Ia., Aug. 8.—Joseph L. Woods of this city, deputy grand potentate Colored Scottish Rite Masons and Myatic Shrine of Iowa, Minnesota and Nebraska, and prominent in state colored Masonic circles, died at Waverly.

### VON WALTERSEE'S RETURN.

Event Quite Overshadowed by the Death of Empress Frederick.

Berlin, Aug. 8.—The return of Count von Waldersee from China has been quite overshadowed by the melancholy event at Cronberg. Countess von Waldersee went on board the Gera at Cuxhaven to greet the count and the Gera then ascended the Elbe to Brunshausen. On the way Count von Waldersee bestowed the China medal upon the officers and crew of the steamship. The Columbia lay at Brunshausen with relatives of the officers, including Admiral von Waldersee. The steamer Blankensee transferred Count von Waldersee and his staff to the Columbia, where they were greeted by Herr Balla, president of the Hamburg-American Steamship company, and other directors of the line.

### CONFIDENT OF WINNING.

Mr. Aderhold Says Boers Are as Far From Defeat as a Year Ago.

Topeka, Kan., Aug. 8.—Thomas Aderhold reached his home here direct from the Transvaal, where for 18 months he has been ministering to the sick and wounded Boers as a Red Cross surgeon. He went to South Africa with the Irish-American hospital corps of Chicago. Mr. Aderhold says that the Boers are as far from defeat now, apparently, as a year ago, and that they are confident of winning. His return is due to being captured by the British and sent from the country. The English were very bitter at those aiding the Boers and only by persistent efforts by the American consul was Mr. Aderhold permitted to escape a term at St. Helena.

### Had Part of Express Robbery Booty.

Berlin, Aug. 8.—A man claiming to be E. C. Bolles of San Francisco, but who registered at the Kaiserhof as Bolles of Boston, was arrested for presenting at a branch of the Dresdener bank checks identified as part of the booty obtained by the robbery of the American Express company's office in Paris during the month of April last. Bolles claims he acquired the checks legitimately.

### Newspaper Correspondent Arrested.

Berlin, Aug. 8.—The Berliner Tageblatt announces that Wilhelm Meyerbach, its correspondent with the Boers, has been arrested by the British on a charge of espionage.

## GO-CARTS AND BABY CARRIAGES At COST

CASH or  
INSTALLMENTS.

## CUMMINS IS NOMINATED

THE DES MOINES MAN SELECTED BY IOWA REPUBLICANS FOR GOVERNOR.

### WINS ON THE FIRST BALLOT

Herriott for Lieutenant Governor, Weaver for Supreme Judge, Brown for Railroad Commissioner and Barrett for Superintendent of Public Instruction—Platform Endorses McKinley and Favors Tariff Revision.

Cedar Rapids, Ia., Aug. 8.—Governor, A. B. Cummins, Des Moines; Lieutenant governor, John Herriott, Stuart; judge of the supreme court, S. M. Weaver, Iowa Falls; railroad commissioner, E. C. Brown, Sheldon; superintendent of public instruction, R. C. Barrett, Osage.

With the above ticket the Republicans of Iowa will go into the next state campaign.

The Republican state convention was called to order at 11:15 a. m. by Chairman Weaver of the state central committee. The delegates arose when the Rev. S. R. McCormick of Cedar Rapids offered prayer. At the conclusion of the invocation Chairman Weaver introduced as the temporary chairman of the convention J. C. Davis of Mohawk. Chairman Davis, in assuming the chair, delivered an address which was well received and frequently interrupted by applause. After the appointment of various committees the convention adjourned until 2 o'clock.

The convention was called to order at 2:15. Chairman Davis called for the report of the committee on credentials, but that body was not ready to report and a delay ensued, which was enlivened by music by the band, songs by a glee club and speeches by Senators Dollivers and Allison and several members of the Iowa congressional delegation.

### Unfavorable to Cummins.

The committee on credentials reported that there were contests in the counties of Polk, Carroll and Jackson. In the county of Polk the report recommended that the full delegation be seated. This gave Cummins a full delegation from Polk county. In Jackson and Carroll counties the committee reported in favor of the anti-Cummins delegations. A minority report was submitted giving both Jackson and Carroll counties to Cummins and agreeing with the majority report on the Polk county delegation. The receipt of the minority report created an uproar, as both factions realized that upon the adoption of the majority or minority report would come the first true test of strength in the convention. The question was put to the convention in the form of a motion to adopt the minority report and a roll call by counties was ordered. The vote resulted in 873 ayes and 768 noes.

The committee on permanent organization recommended H. W. Byers of Shelby, a strong Cummins man, as permanent chairman, and the report was adopted.

### The Platform.

Chairman Byers called for the report of the committee on resolutions, which was unanimously adopted. A synopsis follows:

The Republicans of Iowa congratulate President McKinley on his reelection and rejoice in the manifold blessings resulting to the country therefrom; they congratulate the people of the country upon the prosperity that blesses every class and community; approve the work of the Fifty-sixth congress; oppose negro disfranchisement; endorse the protective tariff, but favor revision and reciprocity; favor anti-trust legislation; endorse the state's delegation in congress and the administration of Governor Shaw.

After adopting the platform the nomination of candidates followed, resulting as above. Mr. Cummins was named on the first ballot, the vote standing: Cummins 860, Trewin 369 1-2, Harriman 359 1-2, Conger 42, Herriott 8, Mahon 2.

Later Mr. Cummins appeared on the platform and in a short speech accepted the nomination.

The nomination of the other candidates quickly followed and the convention adjourned.

### HAS HAD ENOUGH OF IT.

"No More Corn Pools for Me," Says George H. Phillips.

Chicago, Aug. 8.—"No more corn pools for me," said George H. Phillips. "I knew that I was standing over a can of gunpowder all the time and it was only by the merest chance that I escaped total annihilation. I was forced into the May pool, but I won't be forced into another. They are too risky and not at all to my liking."

The corn king made this emphatic declaration apropos of a resolution against pools passed by the board of directors of the board of trade Tuesday.

### Fusion Agreed on in Nebraska.

Lincoln, Neb., Aug. 8.—At a meeting held by the Democratic, Populist and Silver Republican state central committees fusion of the three parties was practically agreed upon; the state conventions of all being fixed for Sept. 17 at Lincoln. W. J. Bryan addressed the Democratic and Populist committees and declared himself strongly for fusion.

### A WORLD WIDE TRUST.

Movement Under Way to Control the Planet's Window Glass Supply.

Pittsburg, Aug. 8.—The Times says: Another vast industrial combination, one of the greatest that has ever been planned, is evidently under way and two prominent Pittsburgers are taking a leading part in the consummation of the project that has for its object the placing in the power of one corporation the control of the world's supply of window glass.

The proposed combination is to take in all of the window glass manufacturers of the world. In effect the business will be conducted from Pittsburg and the nucleus of the organization will be the American Window Glass company of this city. This company practically controls the window glass business of the United States, and the only factories in Europe that amount to anything are located in Belgium. A combination of these Belgian factories is now under way, and as one of the men accredited with the movement is one of Pittsburg's leading financiers, one who has participated in similar undertakings, it is safe to say the present deal will be consummated. The Pittsburgers who are consummating the deal are President Chambers and Vice President Mullins of the American Window Glass company. They left this city for Europe about 10 days ago.

Palace hotel.

CURBSTONE CHAT.

Rev. M. L. Hutton: There are some beautiful lakes in this county and the fishing resorts are certainly superb.

W. W. Wood: I will get even with some of these fellows who have been trying to have some fun with me.

Rev. Clulow: My time will be well taken up between now and October getting ready for the big conference.

LOCAL NEWS NOTES.

Miss Sowl left today for Fargo for a visit.

Cashier G. D. LaBar left this noon for Minneapolis on business.

L. D. Pugh, representing the London Guaranty & Accident Co., is a guest in the city today.

R. G. Valentine left this noon for Toronto, Can., called on account of the serious illness of his mother. He does not expect to be back before Sept. 22.

On August 13th, or in the language of the order on the 13th sun of the Sturgeon moon, the annual great council of the Red Men of Minnesota will meet at Walker, the convention to cover a period of three days. A special train will bring the delegates from St. Paul and Minneapolis and other points in Southern Minnesota. D. M. Clark and J. E. Wallace are the delegates from the local lodge and they will be accompanied by A. F. Ferris, great trustee, and other members. Great preparations are being made by the Red Men of Walker for the entertainment of the visiting brethren.

Rev. S. W. Hover has gone to Merrifield today.

Frank Murphy went to Aitkin this afternoon on business.

Miss Frances Johansen has gone to Staples for a week's visit.

J. L. Nicholson returned from Pilot Mound, Iowa, last night.

J. P. Peterson, father of D. A. Peterson, is in the city from Dayton, Iowa.

N. J. Case has been appointed postmaster at Nary, vice J. R. Roach removed.

Mayor Halsted came in from the lake this morning and returned this afternoon.

J. H. Taylor, the popular knight of the grip, was a guest of friends in the city this morning.

Walter Wieland will return to Hubert Lake tomorrow afternoon, where he is enjoying a few days outing.

Miss Gertie Koop went out to Bay Lake this afternoon to be the guest of Miss Genevieve Carver for a short time.

Clarence L. Burgdiver, impersonator and humorist, will appear at Gardner Hall on Saturday evening August 24.

A. M. Dunning, of the Mahlum hotel, has returned from Buffalo, where he took in the Pan-American exposition.

Miss Sadie Conway, of Minneapolis, is in the city for a few weeks visit with her sister, Mrs. Frank Murphy.

Mrs. James Cullen, Sr., and her niece, Miss Maude Cullen, have gone to Staples to visit for a few days with Mrs. M. Cullen.

Mrs. N. Hunt and children left today for Little Falls for a short visit. Later she will go to Michigan for an extended visit.

Mrs. T. J. Delemere and her son Joe, who have been guests in the city for sometime returned to their home in Minneapolis today.

D. A. Peterson is enjoying a visit from L. E. Paine, of Boone, Iowa, a brother-in-law, and L. Newstrand, of Dayton, Iowa, a cousin.

Mr. and Mrs. A. L. Hoffman left last evening for Gull Lake and will spend the balance of the week at their resort on the Old Mission.

C. E. Chipfield, who has been the guest of friends in the city for the past week or ten days returned to his home in Canton, Ill., this noon.

C. C. DeCoster, of St. Paul, is expected in the city in a day or so for a visit with his cousin, F. E. Stout, of the auditing department of the M. & I.

A. M. Opsahl and his cousin, O. A. Opsahl, of Minneapolis, who is visiting in the city, went out to Long Lake this afternoon for a few days outing.

The ladies aid society of the Presbyterian church will meet with Mrs. A. Purdy on 7th street south on Wednesday afternoon next, Aug. 15, from 2:30 to 4:30.

Mrs. Catherine Crane came in from the east yesterday afternoon for a visit with her sister, Mrs. J. T. Sanborn, and she and Mr. and Mrs. Sanborn have gone to the lakes for a week's outing.

The excursion to Merrifield by the Sunday school of St. Paul's Episcopal church over the M. & I. was very well patronized this morning and the young as well as the old will doubtless have a good time.

Blakeley & Farley, well known in this city, are building a large and commodious houseboat at Cass Lake with a dance hall 40x20, a sitting room 8x20 and twelve state rooms. The boat will make its trial trip on Sunday.

The Ladies' Auxiliary of the Ancient Order of Hibernians met last evening. An invitation was extended to the ladies to meet with the Hibernian order at their public installation ceremonies next Wednesday evening. The invitation was gladly accepted.

Miss Carrie Morrison will entertain a number of very select friends at a dinner this evening at 6:30 o'clock. Those who will be present are: Misses Onolee and Clotilda McCullough, Miss Emma Drabell and Miss Mary Noye and Messrs. F. E. Stout, A. M. Cleaves, Gil Chadburn, J. M. Heffner and W. S. Cox.

Last night some twenty young friends of Miss Nina Berman tendered her a surprise party at the home of Chief and Mrs. Nelson, where she is residing. The evening was very pleasantly spent with parlor games as a diversion. She was the recipient of a very handsome gold ring as a token of esteem.

Secretary Wilhelm and wife returned today from Duluth. Mr. Wilhelm attended a meeting of the Y. M. C. A. secretaries of Northern Minnesota.

Dr. Rounds has sold his home at Verndale and his family will be moved here soon and they will occupy the residence on Tenth street soon to be vacated by Mr. and Mrs. D. Mahoney.

Mr. and Mrs. Wm. Wettrou, of Oak Park, Ill., are expected to arrive in the city tomorrow on a visit with Mrs. Wettrou's parents, Mr. and Mrs. James Chrysler, of Maple Grove township.

Dr. Coventry has gone to Duluth where he expects to practice medicine. The many friends of the young man in this city who have known him since childhood wish him success in the new field.

Mrs. Tannis, Mrs. W. H. Bondy and Mrs. Lyman Hitchcock left for the west Tuesday evening. The latter returns to her home on the coast after a visit in the city with her brother, E. O. Parks.

An immigrant reached the city yesterday and had to solicit the aid of the police to find out where she wanted to go. It was found that she was headed for Brainerd and she is looking for Otto Wilson. He lives in the country and he will be notified.

Neighborhood Gossip.

Stillwater is preparing for the street carnival, Sept. 10.

J. H. Cates, an old soldier and a respected citizen of Long Prairie is dead.

George Alexander who broke jail at Walker a week ago yesterday is still at large.

The pill mixers of North Dakota are in convention at Grand Forks and are having a big time.

Wild Oats seem to be prevalent in the Red River Valley and the farmers are becoming alarmed.

The buildings of the Thief River Falls Lumber Co., at Thief River Falls, were badly damaged by fire Tuesday morning.

At a special election held at Buffalo it was decided by the voters that they did not care to put up any money to go toward a new park.

Fay Brigham, son of Dr. G. S. Brigham, of St. Cloud, nearly lost his life recently by taking hold of two live wires in the Public Service electric light plant in that city.

John Thompson, foreman of THE BRAINERD DISPATCH, and O. Ovig, were here over Sunday taking in the ball game. The Age acknowledges a pleasant call from both gentlemen.—Aitkin Age.

An alderman of Fargo made an address at a meeting of the city council recently denouncing the city officials in permitting masticators of tobacco to practice the filthy habit on the streets.

Abbas Israel congregation of orthodox Jews will build a synagogue at East Third street and Third avenue, Duluth, and have let the contract. It will cost \$10,000 and is to be finished soon after Jan. 1. The building will be of sandstone and wood.

A heavy hail and wind storm at 6:20 Wednesday afternoon broke all the windows on the north side of the houses and stores, and broke glass three-eighths of an inch thick at Biwabik. The stones were one and one-half inches in circumference. There is much damage to goods and furniture.

State Prison Agent Frank Whittier returned yesterday from Ionta, Mich. He brought John Franklin from the prison at Ionta, where he had just finished a term for larceny. The prisoner was taken to Stillwater, where he will be kept for the future. Franklin escaped from the reformatory at St. Cloud, July 23, 1900, after serving eight months of an indeterminate sentence. He was sentenced from Wright county for larceny.—St. Cloud Times.

At the 19th annual meeting of the Crow River Medical Society, held in New Paynesville officers for the ensuing year were elected as follows: President, Dr. F. E. Bissell, Litchfield; vice-president, Dr. P. C. Pilon, New Paynesville; secretary, Dr. James Robertson, Litchfield; treasurer, Dr. A. Archibald, Atwater. The association, after the business session had concluded, were the guests of Dr. Pilon, of this village, in a steamboat ride about Lake Koronis, and an elaborate banquet served at Lake Koronis under a tent. The next meeting of the association will be at Atwater.

CHARGED WITH GRAND LARCENY

An Old Gentleman by the Name of D. W. Leach Taken to Bemidji.

CAUGHT BY SHERIFF AT MOTLEY He Had Been Working for Fidelity Mutual Insurance Co. for Some Time.

Sheriff Bailey, of Bemidji, went north this afternoon having in his custody D. W. Leach, who will have a hearing there on the charge of grand larceny.

The sheriff arrived in the city yesterday afternoon in quest of Leach but the latter had left the city just about two hours before that time. He left word at the Arlington Hotel that he was going to Long Prairie. Sheriff Bailey bought a ticket for that place and left yesterday afternoon on the 1:05 train. While the train stopped at Motley he got off to talk for a few moments with a friend and just happened to mention the fact that he was after a man by the name of Leach. His friend looked up rather surprised and said, "Why, your man is right over there in the hotel." Mr. Bailey went over and placed him under arrest and brought him to Brainerd last night.

Complaint was made against Leach by G. H. Pruden, general agent for the Fidelity Mutual Life Insurance Co. It seems that Leach had been acting as special agent for the company and was working in Bemidji for the concern until recently. He collected some premium money and it is claimed never turned it over.

Leach is well known in this city, Little Falls and St. Cloud where he has worked insurance. He is quite an elderly man.

HAPPY SURPRISE.

A Pleasant Gathering of the N. P. Sanitarium Employees Last Evening in Southeast Brainerd.

Mr. and Mrs. W. T. McClosky were very pleasantly surprised at their home in Southeast Brainerd last evening when all the nurses and the employees at the Northern Pacific Sanitarium dropped in on them to spend the evening. Mrs. Courtney also accompanied the party, and the evening was one of the most pleasant in the history of the association of the many employees together.

Mr. and Mrs. McClosky had just returned from their wedding trip to Missouri and they both have worked and Mr. McClosky is still working at the Sanitarium.

The young people enjoyed the evening in playing many interesting parlor games and one of the pleasant features was the presentation of a purse to Mrs. McClosky of \$15.

OAK LAWN GEMS.

Harvesting is progressing finely, the crop is No. 1.

Applications for schools are coming thick and fast. A year ago school marms were hard to get for love or money.

Tuck Wayt, Fred Aspholm and several other boys will leave for the Dakota wheat fields on Saturday night.

Andrew Johnson has sold his personal effects in Oak Lawn and left for the west; his destination being Portland, Oregon.

Fred Aspholm's wheel broke down on the road to Brainerd on Saturday evening and he didn't get to see his best girl until late in the night.

The Oak Lawn schools are in a prosperous condition. Each district begins the new school year with a good sum of money in the treasury.

Elder Mead is at home running the Armstrong mower with the same energy and power that he has been preaching the gospel at Madelia for the past four weeks.

Cement Sidewalks.

Sealed proposals will be received for the construction of a cement sidewalk along the west side of the court house lot up to 2 o'clock p. m., Aug. 21. Plans and specifications may be seen at any time at the office of the county auditor. The commissioners committee reserves the right to reject any or all bids.

Attest:  
A. MAHLUM, Co. Auditor.

STOP PAYING RENT.  
A chance to secure a delightful home of your own located where you want it and built as you want it, for same money you are now paying for rent.  
Announcement  
Extraordinary.

I wish to announce to the citizens of Brainerd that I have completed arrangements whereby I am now in position to build houses and cottages in any part of the city to suit my customers, and sell them on a small cash payment the balance of purchase price and interest payable in monthly payments that amount to no more than ordinary rent.  
This plan places a new up-to-date home within the reach of every thrifty family in Brainerd. More than that, it affords every family an opportunity to acquire a home for nothing, as the amount paid as rent pays for the home. Prompt action is necessary in order to complete houses this fall. See me at your earliest convenience. First come, first served. I can show plans of some very nice modern houses and cottages of neat and attractive designs.

P. B. NETTLETON,  
Palace Hotel.

REAL ESTATE LOANS.

IF you are going to build, and want a loan, you have a mortgage to renew, you want to borrow for any purpose.

Consult P. B. NETTLETON.

Loans Made for 3, 5, 7, 9 and 12 Year Terms.

I represent the only institution in the state that loans on monthly payments at a reasonable rate of interest, giving the borrower a definite contract as to number of payments to be made. All or a part of a loan may be paid at any time after two years. Loans placed on this line are not foreclosed because they are easily and systematically paid off.

Houses & Lots CASH BOUGHT FOR AND SOLD ON TIME.

Will buy a few houses and lots for cash. Sell them for small cash payment and let your rent money do the rest. Parties having houses and lots for sale should inform me. Those wanting to buy on the easiest terms ever offered should see me. A few new and older houses now for sale. For particulars call on or address

SUBSCRIPTION RATES.  
One Week.....Ten Cents  
One Month.....Forty Cents  
One Year.....Four Dollars  
THURSDAY, AUGUST 8, 1901.

Weather.  
Showers tonight and warmer Friday.

THE Duluth News-Tribune asks, "Did it ever enter into the heart of man to conceive of a governor that would just suit Olpease?" Yes, Granville S. Pease, of Anoka.

IF Mr. Towne has put the dollar above the man as is charged he has surely parted company with Mr. Bryan, for the latter charges that crime up exclusively to the republicans.

WHAT's the matter with Minnesota with \$1 per bushel in sight for potatoes and some of the farmers harvesting from 150 to 200 bushels per acre. There's a whole lot of people who will lose money this fall by not having potatoes to sell.

THE city assessor at St. Cloud has put all church property not used exclusively for church purposes on the tax books only exempting the church buildings and the land upon which they stand. The total amount of such property that will be assessed for the first time in that city is \$10,200.

Pan-American Exposition.  
For the above occasion tickets will be sold by the Northern Pacific Railway Co. for the round trip as follows: One and one-third fares to St. Paul, and from St. Paul via standard lines \$33.35; via differential lines \$31.35. On sale daily up to and including Sept. 30th, 1901. Tickets will require continuous passage in each direction. Final limit 15 days from date of sale.

Vernor's Ginger Ale at the Owl Pharmacy.

Excursion Rates Via "The Milwaukee."

Louisville—August 24, 25, 26, Triennial Conclave Knights Templar, \$21.50 round trip.

Buffalo—All summer, Pan American Exposition, \$24.50 round trip. All tickets good on celebrated Pioneer Limited. Call at Milwaukee office, or write J. T. Conley, Ass't Gen. Pass. Agent, St. Paul, for detailed information. Ask for Pan-American folder.

How To Save Rent.  
Houses for sale—small cash payment. Your rent money for balance. P. B. NETTLETON, Palace hotel.

CURBSTONE CHAT.

Rev. M. L. Hutton: There are some beautiful lakes in this county and the fishing resorts are certainly superb.

W. W. Wood: I will get even with some of these fellows who have been trying to have some fun with me.

Rev. Clulow: My time will be well taken up between now and October getting ready for the big conference.

LOCAL NEWS NOTES.

Miss Sowl left today for Fargo for a visit.

Cashier G. D. LaBar left this noon for Minneapolis on business.

L. D. Pugh, representing the London Guaranty & Accident Co., is a guest in the city today.

R. G. Valentine left this noon for Toronto, Can., called on account of the serious illness of his mother. He does not expect to be back before Sept. 22.

On August 13th, or in the language of the order on the 13th sun of the Sturgeon moon, the annual great council of the Red Men of Minnesota will meet at Walker, the convention to cover a period of three days. A special train will bring the delegates from St. Paul and Minneapolis and other points in Southern Minnesota. D. M. Clark and J. E. Wallace are the delegates from the local lodge and they will be accompanied by A. F. Ferris, great trustee, and other members. Great preparations are being made by the Red Men of Walker for the entertainment of the visiting brethren.

Rev. S. W. Hover has gone to Merrifield today.

Frank Murphy went to Aitkin this afternoon on business.

Miss Frances Johansen has gone to Staples for a week's visit.

J. L. Nicholson returned from Pilot Mound, Iowa, last night.

J. P. Peterson, father of D. A. Peterson, is in the city from Dayton, Iowa.

N. J. Case has been appointed postmaster at Nary, vice J. R. Roach removed.

Mayor Halsted came in from the lake this morning and returned this afternoon.

J. H. Taylor, the popular knight of the grip, was a guest of friends in the city this morning.

Walter Wieland will return to Hubert Lake tomorrow afternoon, where he is enjoying a few days outing.

Miss Gertie Koop went out to Bay Lake this afternoon to be the guest of Miss Genieve Carver for a short time.

Clarence L. Burgdiver, impersonator and humorist, will appear at Gardner Hall on Saturday evening August 24.

A. M. Dunning, of the Mahlum hotel, has returned from Buffalo, where he took in the Pan-American exposition.

Miss Sadie Conway, of Minneapolis, is in the city for a few weeks visit with her sister, Mrs. Frank Murphy.

Mrs. James Cullen, Sr., and her niece, Miss Maude Cullen, have gone to Staples to visit for a few days with Mrs. M. Cullen.

Mrs. N. Hunt and children left today for Little Falls for a short visit. Later she will go to Michigan for an extended visit.

Mrs. T. J. Delemere and her son Joe, who have been guests in the city for sometime returned to their home in Minneapolis today.

D. A. Peterson is enjoying a visit from L. E. Paine, of Boone, Iowa, a brother-in-law, and L. Newstrand, of Dayton, Iowa, a cousin.

Mr. and Mrs. A. L. Hoffman left last evening for Gull Lake and will spend the balance of the week at their resort on the Old Mission.

C. E. Chipfield, who has been the guest of friends in the city for the past week or ten days returned to his home in Canton, Ill., this noon.

C. C. DeCoster, of St. Paul, is expected in the city in a day or so for a visit with his cousin, F. E. Stout, of the auditing department of the M. & I.

A. M. Opsahl and his cousin, O. A. Opsahl, of Minneapolis, who is visiting in the city, went out to Long Lake this afternoon for a few days outing.

The ladies aid society of the Presbyterian church will meet with Mrs. A. Purdy on 7th street south on Wednesday afternoon next, Aug. 15, from 2:30 to 4:30.

Mrs. Catherine Crane came in from the east yesterday afternoon for a visit with her sister, Mrs. J. T. Sanborn, and she and Mr. and Mrs. Sanborn have gone to the lakes for a week's outing.

The excursion to Merrifield by the Sunday school of St. Paul's Episcopal church over the M. & I. was very well patronized this morning and the young as well as the old will doubtless have a good time.

Blakeley & Farley, well known in this city, are building a large and commodious houseboat at Cass Lake with a dance hall 40x20, a sitting room 8x20 and twelve state rooms. The boat will make its trial trip on Sunday.

The Ladies' Auxiliary of the Ancient Order of Hibernians met last evening. An invitation was extended to the ladies to meet with the Hibernian order at their public installation ceremonies next Wednesday evening. The invitation was gladly accepted.

Miss Carrie Morrison will entertain a number of very select friends at a dinner this evening at 6:30 o'clock. Those who will be present are: Misses Onolee and Clotilda McCullough, Miss Emma Drabell and Miss Mary Neye and Messrs. F. E. Stout, A. M. Cleaves, Gil Chadburn, J. M. Heffner and W. S. Cox.

Last night some twenty young friends of Miss Nina Berman tendered her a surprise party at the home of Chief and Mrs. Nelson, where she is residing. The evening was very pleasantly spent with parlor games as a diversion. She was the recipient of a very handsome gold ring as a token of esteem.

Secretary Wilhelm and wife returned today from Duluth. Mr. Wilhelm attended a meeting of the Y. M. C. A. secretaries of Northern Minnesota.

Dr. Rounds has sold his home at Verndale and his family will be moved here soon and they will occupy the residence on Tenth street soon to be vacated by Mr. and Mrs. D. Mahoney.

Mr. and Mrs. Wm. Wettrou, of Oak Park, Ill., are expected to arrive in the city tomorrow on a visit with Mrs. Wettrou's parents, Mr. and Mrs. James Chrysler, of Maple Grove township.

Dr. Coventry has gone to Duluth where he expects to practice medicine. The many friends of the young man in this city who have known him since childhood wish him success in the new field.

Mrs. Tannis, Mrs. W. H. Bondy and Mrs. Lyman Hitchcock left for the west Tuesday evening. The later returns to her home on the coast after a visit in the city with her brother, E. O. Parks.

An immigrant reached the city yesterday and had to solicit the aid of the police to find out where she wanted to go. It was found that she was headed for Brainerd and she is looking for Otto Wilson. He lives in the country and he will be notified.

Miss Sadie Conway, of Minneapolis, is in the city for a few weeks visit with her sister, Mrs. Frank Murphy.

Neighborhood Gossip.

Stillwater is preparing for the street carnival, Sept. 10.

J. H. Cates, an old soldier and a respected citizen of Long Prairie is dead.

George Alexander who broke jail at Walker a week ago yesterday is still at large.

The pill mixers of North Dakota are in convention at Grand Forks and are having a big time.

Wild Oats seem to be prevalent in the Red River Valley and the farmers are becoming alarmed.

The buildings of the Thief River Falls Lumber Co., at Thief River Falls, were badly damaged by fire Tuesday morning.

At a special election held at Buffalo it was decided by the voters that they did not care to put up any money to go toward a new park.

Fay Brigham, son of Dr. G. S. Brigham, of St. Cloud, nearly lost his life recently by taking hold of two live wires in the Public Service electric light plant in that city.

John Thompson, foreman of THE BRAINERD DISPATCH, and O. Ovig, were here over Sunday taking in the ball game. The Age acknowledges a pleasant call from both gentlemen.—Aitkin Age.

An alderman of Fargo made an address at a meeting of the city council recently denouncing the city officials in permitting masticators of tobacco to practice the filthy habit on the streets.

Abbas Israel congregation of orthodox Jews will build a synagogue at East Third street and Third avenue, Duluth, and have let the contract. It will cost \$10,000 and is to be finished soon after Jan. 1. The building will be of sandstone and wood.

A heavy hail and wind storm at 6:20 Wednesday afternoon broke all the windows on the north side of the houses and stores, and broke glass three-eighths of an inch thick at Biwabik. The stones were one and one-half inches in circumference. There is much damage to goods and furniture.

State Prison Agent Frank Whittier returned yesterday from Ionta, Mich. He brought John Franklin from the prison at Ionta, where he had just finished a term for larceny. The prisoner was taken to Stillwater, where he will be kept for the future. Franklin escaped from the reformatory at St. Cloud, July 23, 1900, after serving eight months of an indeterminate sentence. He was sentenced from Wright county for larceny.—St. Cloud Times.

At the 19th annual meeting of the Crow River Medical Society, held in New Paynesville officers for the ensuing year were elected as follows: President, Dr. F. E. **Weather.**  
Showers tonight and warmer Friday.  
The Duluth News-Tribune asks, "Did it ever enter into the heart of man to conceive of a governor that would just suit Olpease?" Yes, Granville S. Pease, of Anoka.

If Mr. Towne has put the dollar above the man as is charged he has surely parted company with Mr. Bryan, for the latter charges that crime up exclusively to the republicans.

WHAT's the matter with Minnesota with \$1 per bushel in sight for potatoes and some of the farmers harvesting from 150 to 200 bushels per acre. There's a whole lot of people who will lose money this fall by not having potatoes to sell.

The city assessor at St. Cloud has put all church property not used exclusively for church purposes on the tax books only exempting the church buildings and the land upon which they stand. The total amount of such property that will be assessed for the first time in that city is \$10,200.

**Pan-American Exposition.**  
For the above occasion tickets will be sold by the Northern Pacific Railway Co. for the round trip as follows: One and one-third fares to St. Paul, and from St. Paul via standard lines \$33.35; via differential lines \$31.35. On sale daily up to and including Sept. 30th, 1901. Tickets will require continuous passage in each direction. Final limit 15 days from date of sale.

Vernor's Ginger Ale at the Owl Pharmacy.

**Excursion Rates Via "The Milwaukee."**  
Louisville—August 24, 25, 26, Triennial Conclave Knights Templar, \$21.50 round trip.  
Buffalo—All summer, Pan American Exposition, \$24.50 round trip. All tickets good on celebrated Pioneer Limited. Call at Milwaukee office, or write J. T. Conley, Ass't Gen. Pass. Agent, St. Paul, for detailed information. Ask for Pan-American folder.

**How To Save Rent.**  
Houses for sale—small cash payment. Your rent money for balance.  
P. B. NETTLETON,  
Palace hotel.

## CURBSTONE CHAT.

Rev. M. L. Hutton: There are some beautiful lakes in this county and the fishing resorts are certainly superb.

W. W. Wood: I will get even with some of these fellows who have been trying to have some fun with me.

Rev. Clulow: My time will be well taken up between now and October getting ready for the big conference.

## LOCAL NEWS NOTES.

Miss Sowl left today for Fargo for a visit.

Cashier G. D. LaBar left this noon for Minneapolis on business.

L. D. Pugh, representing the London Guaranty & Accident Co., is a guest in the city today.

R. G. Valentine left this noon for Toronto, Can., called on account of the serious illness of his mother. He does not expect to be back before Sept. 22.

On August 13th, or in the language of the order on the 13th sun of the Sturgeon moon, the annual great council of the Red Men of Minnesota will meet at Walker, the convention to cover a period of three days. A special train will bring the delegates from St. Paul and Minneapolis and other points in Southern Minnesota. D. M. Clark and J. E. Wallace are the delegates from the local lodge and they will be accompanied by A. F. Ferris, great trustee, and other members. Great preparations are being made by the Red Men of Walker for the entertainment of the visiting brethren.

Rev. S. W. Hover has gone to Merrifield today.

Frank Murphy went to Aitkin this afternoon on business.

Miss Frances Johansen has gone to Staples for a week's visit.

J. L. Nicholson returned from Pilot Mound, Iowa, last night.

J. P. Peterson, father of D. A. Peterson, is in the city from Dayton, Iowa.

N. J. Case has been appointed postmaster at Nary, vice J. E. Roach removed.

Mayor Halsted came in from the lake this morning and returned this afternoon.

J. H. Taylor, the popular knight of the grip, was a guest of friends in the city this morning.

Walter Wieland will return to Hubert Lake tomorrow afternoon, where he is enjoying a few days outing.

Miss Gertie Koop went out to Bay Lake this afternoon to be the guest of Miss Genieve Carver for a short time.

Clarence L. Burgdiver, impersonator and humorist, will appear at Gardner Hall on Saturday evening August 24.

A. M. Dunning, of the Mahlum hotel, has returned from Buffalo, where he took in the Pan-American exposition.

Miss Sadie Conway, of Minneapolis, is in the city for a few weeks visit with her sister, Mrs. Frank Murphy.

Mrs. James Cullen, Sr., and her niece, Miss Maude Cullen, have gone to Staples to visit for a few days with Mrs. M. Cullen.

Mrs. N. Hunt and children left today for Little Falls for a short visit. Later she will go to Michigan for an extended visit.

Mrs. T. J. Delemere and her son Joe, who have been guests in the city for sometime returned to their home in Minneapolis today.

D. A. Peterson is enjoying a visit from L. E. Paine, of Boone, Iowa, a brother-in-law, and L. Newstrand, of Dayton, Iowa, a cousin.

Mr. and Mrs. A. L. Hoffman left last evening for Gull Lake and will spend the balance of the week at their resort on the Old Mission.

C. E. Chipfield, who has been the guest of friends in the city for the past week or ten days returned to his home in Canton, Ill., this noon.

C. C. DeCoster, of St. Paul, is expected in the city in a day or so for a visit with his cousin, F. E. Stout, of the auditing department of the M. & I.

A. M. Opsahl and his cousin, O. A. Opsahl, of Minneapolis, who is visiting in the city, went out to Long Lake this afternoon for a few days outing.

The ladies aid society of the Presbyterian church will meet with Mrs. A. Purdy on 7th street south on Wednesday afternoon next, Aug. 15, from 2:30 to 4:30.

Mrs. Catherine Crane came in from the east yesterday afternoon for a visit with her sister, Mrs. J. T. Sanborn, and she and Mr. and Mrs. Sanborn have gone to the lakes for a week's outing.

The excursion to Merrifield by the Sunday school of St. Paul's Episcopal church over the M. & I. was very well patronized this morning and the young as well as the old will doubtless have a good time.

Blakeley & Farley, well known in this city, are building a large and commodious houseboat at Cass Lake with a dance hall 40x20, a sitting room 8x20 and twelve state rooms. The boat will make its trial trip on Sunday.

The Ladies' Auxiliary of the Ancient Order of Hibernians met last evening. An invitation was extended to the ladies to meet with the Hibernian order at their public installation ceremonies next Wednesday evening. The invitation was gladly accepted.

Miss Carrie Morrison will entertain a number of very select friends at a dinner this evening at 6:30 o'clock. Those who will be present are: Misses Onolee and Clotilda McCullough, Miss Emma Drabelle and Miss Mary Noye and Messrs. F. E. Stout, A. M. Cleaves, Gil Chadburn, J. M. Heffner and W. S. Cox.

Last night some twenty young friends of Miss Nina Berman tendered her a surprise party at the home of Chief and Mrs. Nelson, where she is residing. The evening was very pleasantly spent with parlor games as a diversion. She was the recipient of a very handsome gold ring as a token of esteem.

Secretary Wilhelm and wife returned today from Duluth. Mr. Wilhelm attended a meeting of the Y. M. C. A. secretaries of Northern Minnesota.

Dr. Rounds has sold his home at Verdula and his family will be moved here soon and they will occupy the residence on Tenth street soon to be vacated by Mr. and Mrs. D. Mahoney.

Mr. and Mrs. Wm. Wettrou, of Oak Park, Ill., are expected to arrive in the city tomorrow on a visit with Mrs. Wettrou's parents, Mr. and Mrs. James Chrysler, of Maple Grove township.

Dr. Coventry has gone to Duluth where he expects to practice medicine. The many friends of the young man in this city who have known him since childhood wish him success in the new field.

Mrs. Tannis, Mrs. W. H. Bondy and Mrs. Lyman Hitchcock left for the west Tuesday evening. The later returns to her home on the coast after a visit in the city with her brother, E. O. Parks.

An immigrant reached the city yesterday and had to solicit the aid of the police to find out where she wanted to go. It was found that she was headed for Brainerd and she is looking for Otto Wilson. He lives in the country and he will be notified.

## Neighborhood Gossip.

Stillwater is preparing for the street carnival, Sept. 10.

J. H. Cates, an old soldier and a respected citizen of Long Prairie is dead.

George Alexander who broke jail at Walker a week ago yesterday is still at large.

The pill mixers of North Dakota are in convention at Grand Forks and are having a big time.

Wild Oats seem to be prevalent in the Red River Valley and the farmers are becoming alarmed.

The buildings of the Thief River Falls Lumber Co., at Thief River Falls, were badly damaged by fire Tuesday morning.

At a special election held at Buffalo it was decided by the voters that they did not care to put up any money to go toward a new park.

Fay Brigham, son of Dr. G. S. Brigham, of St. Cloud, nearly lost his life recently by taking hold of two live wires in the Public Service electric light plant in that city.

John Thompson, foreman of THE BRAINERD DISPATCH, and O. Ovig, were here over Sunday taking in the ball game. The Age acknowledges a pleasant call from both gentlemen.—Aitkin Age.

An alderman of Fargo made an address at a meeting of the city council recently denouncing the city officials in permitting masticators of tobacco to practice the filthy habit on the streets.

Abbas Israel congregation of orthodox Jews will build a synagogue at East Third street and Third avenue, Duluth, and have let the contract. It will cost \$10,000 and is to be finished soon after Jan. 1. The building will be of sandstone and wood.

A heavy hail and wind storm at 6:20 Wednesday afternoon broke all the windows on the north side of the houses and stores, and broke glass three-eighths of an inch thick at Biwabik. The stones were one and one-half inches in circumference. There is much damage to goods and furniture.

State Prison Agent Frank Whittier returned yesterday from Ionta, Mich. He brought John Franklin from the prison at Ionta, where he had just finished a term for larceny. The prisoner was taken to Stillwater, where he will be kept for the future. Franklin escaped from the reformatory at St. Cloud, July 23, 1900, after serving eight months of an indeterminate sentence. He was sentenced from Wright county for larceny.—St. Cloud Times.

At the 19th annual meeting of the Crow River Medical Society, held in New Paynesville officers for the ensuing year were elected as follows: President, Dr. F. E. Bissell, Litchfield; vice-president, Dr. P. C. Pilon, New Paynesville; secretary, Dr. James Robertson, Litchfield; treasurer, Dr. A. Archibald, Atwater. The association, after the business session had concluded, were the guests of Dr. Pilon, of this village, in a steamboat ride about Lake Koronis, and an elaborate banquet served at Lake Koronis under a tent. The next meeting of the association will be at Atwater.

## CHARGED WITH GRAND LARCENY

An Old Gentleman by the Name of D. W. Leach Taken to Bemidji.

CAUGHT BY SHERIFF AT MOTLEY He Had Been Working for Fidelity Mutual Insurance Co. for Some Time.

Sheriff Bailey, of Bemidji, went north this afternoon having in his custody D. W. Leach, who will have a hearing there on the charge of grand larceny.

The sheriff arrived in the city yesterday afternoon in quest of Leach but the latter had left the city just about two hours before that time. He left word at the Arlington Hotel that he was going to Long Prairie. Sheriff Bailey bought a ticket for that place and left yesterday afternoon on the 1:05 train. While the train stopped at Motley he got off to talk for a few moments with a friend and just happened to mention the fact that he was after a man by the name of Leach. His friend looked up rather surprised and said, "Why, your man is right over there in the hotel." Mr. Bailey went over and placed him under arrest and brought him to Brainerd last night.

Complaint was made against Leach by G. H. Pruden, general agent for the Fidelity Mutual Life Insurance Co. It seems that Leach had been acting as special agent for the company and was working in Bemidji for the concern until recently. He collected some premium money and it is claimed never turned it over.

Leach is well known in this city, Little Falls and St. Cloud where he has worked insurance. He is quite an elderly man.

## HAPPY SURPRISE.

A Pleasant Gathering of the N. P. Sanitarium Employees Last Evening in Southeast Brainerd.

Mr. and Mrs. W. T. McClosky were very pleasantly surprised at their home in Southeast Brainerd last evening when all the nurses and the employees at the Northern Pacific Sanitarium dropped in on them to spend the evening. Mrs. Courtney also accompanied the party, and the evening was one of the most pleasant in the history of the association of the many employees together.

Mr. and Mrs. McClosky had just returned from their wedding trip to Missouri and they both have worked at the Sanitarium.

The young people enjoyed the evening in playing many interesting parlor games and one of the pleasant features was the presentation of a purse to Mrs. McClosky of \$15.

## OAK LAWN GEMS.

Harvesting is progressing finely, the crop is No. 1.

Applications for schools are coming thick and fast. A year ago school marms were hard to get for love or money.

Tuck Wayt, Fred Aspholm and several other boys will leave for the Dakota wheat fields on Saturday night.

Andrew Johnson has sold his personal effects in Oak Lawn and left for the west; his destination being Portland, Oregon.

Fred Aspholm's wheel broke down on the road to Brainerd on Saturday evening and he didn't get to see his best girl until late in the night.

The Oak Lawn schools are in a prosperous condition. Each district begins the new school year with a good sum of money in the treasury.

Elder Mead is at home running the Armstrong mower with the same energy and power that he has been preaching the gospel at Madelia for the past four weeks.

## Cement Sidewalks.

Sealed proposals will be received for the construction of a cement sidewalk along the west side of the court house lot up to 2 o'clock p. m., Aug. 21. Plans and specifications may be seen at any time at the office of the county auditor. The commissioners committee reserves the right to reject any or all bids.

Attest:  
A. MAHLUM, Co. Auditor.

# STOP PAYING RENT.

A chance to secure a delightful home of your own located where you want it and built as you want it, for same money you are now paying for rent.

# Announcement Extraordinary.

I wish to announce to the citizens of Brainerd that I have completed arrangements whereby I am now in position to build houses and cottages in any part of the city to suit my customers, and sell them on a small cash payment the balance of purchase price and interest payable in monthly payments that amount to no more than ordinary rent.

This plan places a new up-to-date home within the reach of every thrifty family in Brainerd. More than that, it affords every family an opportunity to acquire a home for nothing, as the amount paid as rent pays for the home. Prompt action is necessary in order to complete houses this fall. See me at your earliest convenience. First come, first served. I can show plans of some very nice modern houses and cottages of neat and attractive designs.

# P. B. Nettleton,

## Palace Hotel.

### REAL ESTATE LOANS.

IF you are going to build, and want a loan, you have a mortgage to renew, you want to borrow for any purpose.

Consult P. B. NETTLETON.

Loans Made for 3, 5, 7, 9 and 12 Year Terms.

I represent the only institution in the state that loans on monthly payments at a reasonable rate of interest, giving the borrower a definite contract as to number of payments to be made. All or a part of a loan may be paid at any time after two years. Loans placed on this line are not foreclosed because they are easily and systematically paid off.

# Houses & Lots CASH

## BOUGHT FOR CASH

### AND SOLD ON TIME.

Will buy a few houses and lots for Cash. Sell them for small cash payment and let your rent money do the rest. Parties having houses and lots for sale should inform me. Those wanting to buy on the easiest terms ever offered should see me. A few new and older houses now for sale. For particulars call on or address

48-12 Brainerd, Minn.

Nothing pays like judicious advertising. A trial in the DAILY DISPATCH will convince the most skeptical.

**HORRIBLY MANGLED  
AND CRUSHED.**  
August Goder Employed at Bill-  
ling's Mill Is a Victim of a  
Terrible Accident.  
**HE CANNOT SURVIVE THE DAY**  
His Chest Shattered and Nearly  
Every Rib in His Body  
Broken.

One of the most heart-sickening accidents chronicled for some time occurred this morning about 9 o'clock at the Billing mill north of the city and as a result of the injuries received August Goder will probably die before the day is done.

Goder was working about the mill and this morning given something to do near the large dog chain. Somehow or another he got caught in the chain and it pulled him up the gang way and before he was discovered he had been horribly mangled and crushed. He was at once moved to St. Joseph's hospital and Drs. Camp and Thabes were called to attend him. It was found that the bones in his chest were shattered and nearly every rib in his body broken. One arm was broken in two places, and besides these injuries he was horribly bruised about the face and the body.

The physicians state that in all their experience they never saw a man so badly injured and still be alive. When brought to the hospital he was able to talk and did talk for some time to Dr. Camp about his injuries.

Coder is a single man about thirty years of age. He has a farm near Aitkin somewhere which is rented every year, while he comes down to some one of the mills to work. He was always industrious and diligent, but he has been very unfortunate with accidents. Some time ago he was injured at the mill and Dr. Camp amputated nearly every toe he had on the right foot.

The attending physicians say that it is almost impossible for him to live and it is only a matter of time before he breathes his last.

It is thought that besides the many injuries which are apparent from without that he has also been injured internally and it is impossible for him to survive more than a few hours. He is fast declining and passed into an unconscious state shortly before dinner.

Fargo wants a game with Brainerd and one will probably be arranged for about Sept. 1.

It is understood that E. Rogers, the Aitkin pitcher, has an offer from Fargo.

Little Falls does not want to come to Brainerd to play. It is understood to be the old grievance. It seems they are sore over the fact that the management refused to pay their board here a year ago. M. K. Swartz got the team here on that occasion and it is understood that they refused to play out at the driving park, hence Mr. Swartz refused to settle their bill.

Aitkin will in all probability play another game here Sunday. They are very anxious to come down and as Manager Lagerquist is unable to get any other team, they will probably be here.

This is the way the Journal-Press puts it: Brainerd can't keep its habits on. Its team bested Aitkin 8 to 4 Sunday at Aitkin and the Brainerd boys owned the town that night.

The Aitkin Age accounts for the loss of Sunday's game with the following words: The Aitkin ball tossers fell down badly in the game with Brainerd last Sunday. The game stood 4 to 1 until the sixth inning, when Chapman, the 1st baseman muffed a ball, and this seemed the beginning of a general breakdown. Roger's arm gave out and the visitors began to pound him all over the field.

**CROW WING FIRM INVOLVED.**  
Dr. E. M. Johnson, of St. Cloud Interested  
in Sauer & Co. Milling Business  
Goes Into Bankruptcy.

Dr. E. M. Johnson, of St. Cloud, has made an application in the United States court at Fergus Falls to be declared a bankrupt and this connection a Crow Wing county firm is slightly affected as the doctor was heavily interested. The firm is Sauer & Co.

The Journal-Press has the following to say regarding the matter: Judge Theo. Bruener is attorney for Dr. Johnson, whose financial troubles are only indirectly his own fault. Dr. Johnson has been a successful practitioner in this city for a number of years and a couple of years ago was rated as worth nearly \$30,000. Less than two years ago however he became a member of the firm of Sauer & Co., manufacturers of pine lumber in Crow Wing county and his financial embarrassment dates from the deal. Neither his partner nor he were experienced men in the sawmill business and they have lost money.

The partnership was dissolved four or five months ago but Dr. Johnson has at last been forced to the issue of voluntary bankruptcy to protect all the creditors. The inventory of assets shows a nominal value of about \$9,000, while the liabilities are not more than half this amount. The principal assets consist of lumber saved one year and two years ago and its market value is therefore somewhat uncertain. The largest individual claim is held by John C. Larson of this city who was in charge of the business for some months, but it is claimed that he has never filed any statement of the business while it was in his charge. C. L. Atwood had a claim of \$600 but this was secured some time ago. The estimate of Dr. Johnson's losses directly to be traced to the investment in the firm of Sauer & Co. is not less than \$7,000.

**OHIO BY SCHOONER.**  
F. L. McLellan Goes Back to His old Home  
in a Novel Way--Speaks Good  
Word For This Country.

The following was taken from the Minneapolis Journal of last night: F. L. McLellan, a farmer residing near Brainerd was here to-day on his way to Ohio. Mr. McLellan is making the trip back to the Buckeye state in an emigrant wagon. He says that he will return after a visit of a year. Mr. McLellan went into the Brainerd country twenty years ago, when all was new. He says that there were 1,000 Indians in and around Brainerd when he landed there.

"I have not been back to Ohio since I landed here," said Farmer McLellan, "but from what my friends write I know that this is a much better state for the man of moderate means than Ohio. The Brainerd country will develop into a good farming country. Land will be worth a big price before many years."

**FLORA PLEADS GUILTY.**  
After Thinking the Matter over for a  
Short Time Mrs. Luco Decides  
That She was Disorderly.

This morning a hearing in Mrs. Flora Luco's case was had before Judge Mantor, and she decided after considering the matter that she would enter a plea of guilty to the charge of running a disorderly house.

Judge Mantor stated that he could not in view of the fact that she had changed her plea from that of not guilty to guilty, thus saving the expense of prosecution, give her the maximum, but on the other hand he did not feel that he could give her the minimum since she had plead not guilty yesterday; and he further admonished the defendant that should she be brought before the court again he would certainly not be as lenient with her as he had been in this case. The court imposed a fine of \$30.

This was paid by a friend of hers shortly after court was adjourned and it is understood that this same friend intends to marry Mrs. Luco as soon as she can secure a divorce from her better half. This will add chapter four to the checkered career of this Bavarian damsel.

D. M. Clark & Co. are agents for the New England Queen sewing machine. Small payments.

Furniture, carpets and stoves sold on small payments at D. M. Clark & Co.

A nice cool and refreshing drink or delicious ice cream soda at the Owl Pharmacy

**HOISTERS AND  
LOADERS STRIKE**  
All Quit Their Work on Bemidji  
Lake and Get Their Time  
At Once  
ASKED FOR TEN DOLLAR RAISE  
Boarding House Locked Up And  
Everything Is Now At  
A Standstill

Several of the men who have been working for the Minnesota & International on Bemidji Lake as hoisters and loaders are in the city today and they bring the news of a strike there late yesterday afternoon.

The men have all quit work, or rather have been let out, the boarding house closed and all the hoisting machinery is said to be at a standstill. The men made a demand for higher wages and it is said they all got their time and the business closed down. It is understood they were getting \$60 and struck for \$70 per month.

The M. & I. has the contract for hauling these logs down but more men will have to be secured before the work can be continued.

**None To Claim Him.**  
Late yesterday afternoon Andrew Markeson, who has been employed for some time by J. A. Long, in charge of the camp about nine miles from Hackensack, died at St. Joseph's hospital after a sickness of about ten days.

The funeral services were held this afternoon from the Dr. M. Clark & Co's morgue and he was given a respectable burial, but none of his relatives were present.

**New Athletic Organization.**  
Several young men of East Brainerd met last night and organized what will be known in the future as the Crescent Acrobatic and Athletic Association.

A. J. Winters was named as instructor and the boys will be put through a course of thorough training. Strange as it may seem there are a large number of young men who are nearly in the expert class of acrobats and they will go in the parade on Labor Day and will surprise everyone.

The new organization starts out under very favorable circumstances and the boys are very enthusiastic.

**Dr. P. H. Irish Married.**  
The Minneapolis papers give an account of a wedding which occurred in Minneapolis Monday morning which will be of interest to Brainerdites.

Dr. P. H. Irish, who formerly lived and practiced in this city, was married to a Miss Stella Richards, of Chatfield, Minn. Many friends of the genial doctor in this city will extend congratulations. He is now practicing medicine at Akeley and the young couple will make their home there.

**FAST IRRIGATION PROJECTS**  
Plans For Reclaiming Lands In the  
Arid Regions.

Plans have just been completed for two of the largest irrigation projects, writes the New York Post's correspondent from Phoenix, A. T. A company of southern Arizona and California capitalists has filed a claim upon 140,000 acres of desert government land in northern Yuma county on the Colorado river, and with 40,000 acres purchased from the Blythe estate they intend to turn the vast tract into farm land and put it under cultivation by turning upon it the waters of the Colorado. It is understood that \$250,000 will be paid for the Blythe land and that \$1,000,000 will be spent on a storage dam and canal system. Los Angeles, Yuma and San Diego capital is interested in the project. There is a project also on foot which involves the pumping of water for a very large area of land east of Phoenix. A company which controls the canals that supply the eastern end of the Salt river valley with water is placing a big electrical plant at the head waters of the canals, where there is a fall of over 20 feet. Here they intend to develop power to raise water enough from half a hundred wells to irrigate several thousand acres, as much land again as they can now supply from their canals.

It is a well known fact that under most of the desert lands in Arizona, where on the surface water is rarely seen, there is an apparently inexhaustible underground flow. The extremely high price of fuel, however, has heretofore been a bar to pumping water to the surface, and the introduction of electricity provides the promise of the reclamation of many miles of desert where canals cannot reach.

**COMMISSIONER'S PROCEEDINGS.**  
Proceedings of the Meeting of the Board  
Crow Wing County Commissioners,  
Meeting Held Aug. 6th.  
1901.  
[OFFICIAL.]

All members present.

The minutes of previous meeting were read and approved.

On a motion duly carried, the resolution passed at July meeting, asking County Surveyor Whiteley to resign from the office of county surveyor, was reconsidered.

On motion duly carried, a petition to organize Town 45, Range 29, into a town and name the same Nokay Lake was read and on motion duly carried, same was granted.

Motion duly made and carried, that a steam heating plant be put in at the court house and county jail, and that the auditor be directed to advertise for bids for the putting in of said plant. Commissioners Erickson, Paine and chairman was appointed a committee of three with power to act.

Moved and duly carried, that a cement sidewalk be put in along west side of court house block, under the direction of above named committee, and that the auditor be directed to advertise for bids for said work.

The following report from the auditing committee was read: To the Honorable Board of County Commissioners, Crow Wing Co., Minn. Gentlemen:—

We, the auditing committee, beg leave to submit the following report, viz:

That on the first day of August, 1901, we examined the books and accounts of County Treasurer Frater, and found the following to be a true and correct statement of the county treasurer, to-wit:

Balance on hand July 31st.  
1901 ..... \$45,139 70  
Accounted for by treasurer as follows:  
In First National Bank.....\$31,950 62  
In Northern Pacific Bank.....13,023 64  
Currency.....6 00  
Paid for postage and expressage.....19 60  
Orders on state treasury.....38 00  
Postage stamps.....13

W. A. M. JOHNSTON,  
J. S. GARDNER,  
Auditing Committee.

Report of overseer of poor farm for month of July read and accepted.

The following appropriations from the road and bridge fund were made: \$50 on Bay Lake and Deerwood road, under direction of Commissioner Maghan.

\$100 in favor of town treasurer of Dean Lake for bridges and approaches at sections 8 and 9, said town 46, range 29, to be expended under direction of Commissioner Maghan.

\$50 for corduroy at sections 16, 17, 20, 21, in town 46, range 29, to be expended under direction of Commissioner Maghan.

\$100 in favor of town treasurer town of Emily, for general road purposes.

On motion duly carried, the auditor was directed to notify J. M. Quinn and associates to repair bridge at outlet of Cullen Lake, and place same in as good condition as before removed.

HORRIBLY MANGLED AND CRUSHED.

August Goder Employed at Billing's Mill Is a Victim of a Terrible Accident.

HE CANNOT SURVIVE THE DAY

His Chest Shattered and Nearly Every Rib in His Body Broken.

One of the most heart-breaking accidents chronicled for some time occurred this morning about 9 o'clock at the Billing mill north of the city and as a result of the injuries received August Goder will probably die before the day is done.

Goder was working about the mill and this morning given something to do near the large dog chain. Somehow or another he got caught in the chain and it pulled him up the gang way and before he was discovered he had been horribly mangled and crushed. He was at once moved to St. Joseph's hospital and Drs. Camp and Thabes were called to attend him. It was found that the bones in his chest were shattered and nearly every rib in his body broken. One arm was broken in two places, and besides these injuries he was horribly bruised about the face and the body.

The physicians state that in all their experience they never saw a man so badly injured and still be alive. When brought to the hospital he was able to talk and did talk for some time to Dr. Camp about his injuries.

Goder is a single man about thirty years of age. He has a farm near Aitkin somewhere which is rented every year, while he comes down to some one of the mills to work. He was always industrious and diligent, but he has been very unfortunate with accidents. Some time ago he was injured at the mill and Dr. Camp amputated nearly every toe he had on the right foot.

The attending physicians say that it is almost impossible for him to live and it is only a matter of time before he breathes his last.

It is thought that besides the many injuries which are apparent from without that he has also been injured internally and it is impossible for him to survive more than a few hours. He is fast declining and passed into an unconscious state shortly before dinner.

ON THE DIAMOND.

Fargo wants a game with Brainerd and one will probably be arranged for about Sept. 1.

It is understood that E. Rogers, the Aitkin pitcher, has an offer from Fargo.

Little Falls does not want to come to Brainerd to play. It is understood to be the old grievance. It seems they are sore over the fact that the management refused to pay their board here a year ago. M. K. Swartz got the team here on that occasion and it is understood that they refused to play out at the driving park, hence Mr. Swartz refused to settle their bill.

Aitkin will in all probability play another game here Sunday. They are very anxious to come down and as Manager Lagerquist is unable to get any other team, they will probably be here.

This is the way the Journal-Press puts it: Brainerd can't keep its habits on. Its team bested Aitkin 8 to 4 Sunday at Aitkin and the Brainerd boys owned the town that night.

The Aitkin Age accounts for the loss of Sunday's game with the following words: The Aitkin ball tossers fell down badly in the game with Brainerd last Sunday. The game stood 4 to 1 until the sixth inning, when Chapman, the 1st baseman muffed a ball, and this seemed the beginning of a general breakdown. Roger's arm gave out and the visitors began to pound him all over the field.

CROW WING FIRM INVOLVED.

Dr. E. M. Johnson, of St. Cloud Interested in Sauer & Co. Milling Business Goes Into Bankruptcy.

Dr. E. M. Johnson, of St. Cloud, has made an application in the United States court at Fergus, Falls to be declared a bankrupt and this connection a Crow Wing county firm is slightly affected as the doctor was heavily interested. The firm is Sauer & Co.

The Journal-Press has the following to say regarding the matter:

Judge Theo. Bruener is attorney for Dr. Johnson, whose financial troubles are only indirectly his own fault. Dr. Johnson has been a successful practitioner in this city for a number of years and a couple of years ago was rated as worth nearly \$30,000. Less than two years ago however he became a member of the firm of Sauer & Co., manufacturers of pine lumber in Crow Wing county and his financial embarrassment dates from the deal. Neither his partner nor he were experienced men in the sawmill business and they have lost money.

The partnership was dissolved four or five months ago but Dr. Johnson has at last been forced to the issue of voluntary bankruptcy to protect all the creditors. The inventory of assets shows a nominal value of about \$9,000, while the liabilities are not more than half this amount. The principal assets consist of lumber sawed one year and two years ago and its market value is therefore somewhat uncertain. The largest individual claim is held by John C. Larson of this city who was in charge of the business for some months, but it is claimed that he has never filed any statement of the business while it was in his charge. C. L. Atwood had a claim of \$600 but this was secured some time ago. The estimate of Dr. Johnson's losses directly to be traced to the investment in the firm of Sauer & Co. is not less than \$7,000.

OHIO BY SCHOONER.

F. L. McLellan Goes Back to His old Home in a Novel Way--Speaks Good Word For This Country.

The following was taken from the Minneapolis Journal of last night:

F. L. McLellan, a farmer residing near Brainerd was here to-day on his way to Ohio. Mr. McLellan is making the trip back to the Buckeye state in an emigrant wagon. He says that he will return after a visit of a year. Mr. McLellan went into the Brainerd country twenty years ago, when all was new. He says that there were 1,000 Indians in and around Brainerd when he landed there.

"I have not been back to Ohio since I landed here," said Farmer McLellan, "but from what my friends write I know that this is a much better state for the man of moderate means than Ohio. The Brainerd country will develop into a good farming country. Land will be worth a big price before many years."

FLORA PLEADS GUILTY.

After Thinking the Matter over for a Short Time Mrs. Luco Decides That She was Disorderly.

This morning a hearing in Mrs. Flora Luco's case was had before Judge Mantor, and she decided after considering the matter that she would enter a plea of guilty to the charge of running a disorderly house.

Judge Mantor stated that he could not in view of the fact that she had changed her plea from that of not guilty to guilty, thus saving the expense of prosecution, give her the maximum, but on the other hand he did not feel that he could give her the minimum since she had pleaded not guilty yesterday; and he further admonished the defendant that should she be brought before the court again he would certainly not be as lenient with her as he had been in this case. The court imposed a fine of \$30.

This was paid by a friend of hers shortly after court was adjourned and it is understood that this same friend intends to marry Mrs. Luco as soon as she can secure a divorce from her better half. This will add chapter four to the checkered career of this Bavarian damsel.

HOISTERS AND LOADERS STRIKE

All Quit Their Work on Bemidji Lake and Get Their Time At Once

ASKED FOR TEN DOLLAR RAISE

Boarding House Locked Up And Everything Is Now At A Standstill

Several of the men who have been working for the Minnesota & International on Bemidji Lake as hoisters and loaders are in the city today and they bring the news of a strike there late yesterday afternoon.

The men have all quit work, or rather have been let out, the boarding house closed and all the hoisting machinery is said to be at a standstill. The men made a demand for higher wages and it is said they all got their time and the business closed down. It is understood they were getting \$60 and struck for \$70 per month.

The M. & I. has the contract for hauling these logs down but more men will have to be secured before the work can be continued.

None To Claim Him.

Late yesterday afternoon Andrew Markeson, who has been employed for some time by J. A. Long, in charge of the camp about nine miles from Hackensack, died at St. Joseph's hospital after a sickness of about ten days.

The funeral services were held this afternoon from the Dr. M. Clark & Co's morgue and he was given a respectable burial, but none of his relatives were present.

New Athletic Organization.

Several young men of East Brainerd met last night and organized what will be known in the future as the Crescent Acrobatic and Athletic Association.

A. J. Winters was named as instructor and the boys will be put through a course of thorough training. Strange as it may seem there are a large number of young men who are nearly in the expert class of acrobats and they will go in the parade on Labor Day and will surprise everyone.

The new organization starts out under very favorable circumstances and the boys are very enthusiastic.

Dr. P. H. Irish Married.

The Minneapolis papers give an account of a wedding which occurred in Minneapolis Monday morning which will be of interest to Brainerdites.

Dr. P. H. Irish, who formerly lived and practiced in this city, was married to a Miss Stella Richards, of Chatfield, Minn. Many friends of the genial doctor in this city will extend congratulations. He is now practicing medicine at Akeley and the young couple will make their home there.

VAST IRRIGATION PROJECTS

Plans For Reclaiming Lands In the Arid Regions.

Plans have just been completed for two of the largest irrigation projects, writes the New York Post's correspondent from Phoenix, A. T. A company of southern Arizona and California capitalists has filed a claim upon 140,000 acres of desert government land in northern Yuma county on the Colorado river, and with 40,000 acres purchased from the Blythe estate they intend to turn the vast tract into farm land and put it under cultivation by turning upon it the waters of the Colorado. It is understood that \$250,000 will be paid for the Blythe land and that \$1,000,000 will be spent on a storage dam and canal system. Los Angeles, Yuma and San Diego capital is interested in the project. There is a project also on foot which involves the pumping of water for a very large area of land east of Phoenix. A company which controls the canals that supply the eastern end of the Salt river valley with water is placing a big electrical plant at the head waters of the canals, where there is a fall of over 20 feet. Here they intend to develop power to raise water enough from half a hundred wells to irrigate several thousand acres, as much land again as they can now supply from their canals.

It is a well known fact that under most of the desert lands in Arizona, where on the surface water is rarely seen, there is an apparently inexhaustible underground flow. The extremely high price of fuel, however, has heretofore been a bar to pumping water to the surface, and the introduction of electricity provides the promise of the reclamation of many miles of desert where canals cannot reach.

COMMISSIONER'S PROCEEDINGS.

Proceedings of the Meeting of the Board Crow Wing County Commissioners, Meeting Held Aug. 6th. 1901.

[OFFICIAL.]

All members present. The minutes of previous meeting were read and approved.

On a motion duly carried, the resolution passed at July meeting, asking County Surveyor Whiteley to resign from the office of county surveyor, was reconsidered.

On motion duly carried, a petition to organize Town 45, Range 29, into a town and name the same Nokay Lake was read and on motion duly carried, same was granted.

Motion duly made and carried, that a steam heating plant be put in at the court house and county jail, and that the auditor be directed to advertise for bids for the putting in of said plant. Commissioners Erickson, Paine and chairman was appointed a committee of three with power to act.

Moved and duly carried, that a cement sidewalk be put in along west side of court house block, under the direction of above named committee, and that the auditor be directed to advertise for bids for said work.

The following report from the auditing committee was read: To the Honorable Board of County Commissioners, Crow Wing Co., Minn. Gentlemen:—

We, the auditing committee, beg leave to submit the following report, viz:

That on the first day of August, 1901, we examined the books and accounts of County Treasurer Frater, and found the following to be a true and correct statement of the county treasurer, to-wit:

Balance on hand July 31st.

1901 ..... \$45,139 70

Accounted for by treasurer as follows:

In First National Bank... \$31,950 62

## HORRIBLY MANGLED AND CRUSHED.

August Goder Employed at Billing's Mill Is a Victim of a Terrible Accident.

HE CANNOT SURVIVE THE DAY

His Chest Shattered and Nearly Every Rib in His Body Broken.

One of the most heart-rending accidents chronicled for some time occurred this morning about 9 o'clock at the Billing mill north of the city and as a result of the injuries received August Goder will probably die before the day is done.

Goder was working about the mill and this morning given something to do near the large dog chain. Somehow or another he got caught in the chain and it pulled him up the gang way and before he was discovered he had been horribly mangled and crushed. He was at once moved to St. Joseph's hospital and Drs. Camp and Thabes were called to attend him. It was found that the bones in his chest were shattered and nearly every rib in his body broken. One arm was broken in two places, and besides these injuries he was horribly bruised about the face and the body.

The physicians state that in all their experience they never saw a man so badly injured and still be alive. When brought to the hospital he was able to talk and did talk for some time to Dr. Camp about his injuries.

Goder is a single man about thirty years of age. He has a farm near Aitkin somewhere which is rented every year, while he comes down to some one of the mills to work. He was always industrious and diligent, but he has been very unfortunate with accidents. Some time ago he was injured at the mill and Dr. Camp amputated nearly every toe he had on the right foot.

The attending physicians say that it is almost impossible for him to live and it is only a matter of time before he breathes his last.

It is thought that besides the many injuries which are apparent from without that he has also been injured internally and it is impossible for him to survive more than a few hours. He is fast declining and passed into an unconscious state shortly before dinner.

## ON THE DIAMOND.

Fargo wants a game with Brainerd and one will probably be arranged for about Sept. 1.

It is understood that E. Rogers, the Aitkin pitcher, has an offer from Fargo.

Little Falls does not want to come to Brainerd to play. It is understood to be the old grievance. It seems they are sore over the fact that the management refused to pay their board here a year ago. M. K. Swartz got the team here on that occasion and it is understood that they refused to play out at the driving park, hence Mr. Swartz refused to settle their bill.

Aitkin will in all probability play another game here Sunday. They are very anxious to come down and as Manager Lagerquist is unable to get any other team, they will probably be here.

This is the way the Journal-Press puts it: Brainerd can't keep its habits on. Its team bested Aitkin 8 to 4 Sunday at Aitkin and the Brainerd boys owned the town that night.

The Aitkin Age accounts for the loss of Sunday's game with the following words: The Aitkin ball tossers fell down badly in the game with Brainerd last Sunday. The game stood 4 to 1 until the sixth inning, when Chapman, the 1st baseman muffed a ball, and this seemed the beginning of a general breakdown. Roger's arm gave out and the visitors began to pound him all over the field.

## CROW WING FIRM INVOLVED.

Dr. E. M. Johnson, of St. Cloud Interested in Sauer & Co. Milling Business Goes into Bankruptcy.

Dr. E. M. Johnson, of St. Cloud, has made an application in the United States court at Fergus Falls to be declared a bankrupt and this connection a Crow Wing county firm is slightly affected as the doctor was heavily interested. The firm is Sauer & Co.

The Journal-Press has the following to say regarding the matter:

Judge Theo. Bruener is attorney for Dr. Johnson, whose financial troubles are only indirectly his own fault. Dr. Johnson has been a successful practitioner in this city for a number of years and a couple of years ago was rated as worth nearly \$30,000. Less than two years ago however he became a member of the firm of Sauer & Co., manufacturers of pine lumber in Crow Wing county and his financial embarrassment dates from the deal. Neither his partner nor he were experienced men in the sawmill business and they have lost money.

The partnership was dissolved four or five months ago but Dr. Johnson has at last been forced to the issue of voluntary bankruptcy to protect all the creditors. The inventory of assets shows a nominal value of about \$9,000, while the liabilities are not more than half this amount. The principal assets consist of lumber sawed one year and two years ago and its market value is therefore somewhat uncertain. The largest individual claim is held by John C. Larson of this city who was in charge of the business for some months, but it is claimed that he has never filed any statement of the business while it was in his charge. C. L. Atwood had a claim of \$600 but this was secured some time ago. The estimate of Dr. Johnson's losses directly to be traced to the investment in the firm of Sauer & Co. is not less than \$7,000.

## OHIO BY SCHOONER.

F. L. McLellan Goes Back to His Old Home in a Novel Way--Speaks Good Word For This Country.

The following was taken from the Minneapolis Journal of last night: F. L. McLellan, a farmer residing near Brainerd was here to-day on his way to Ohio. Mr. McLellan is making the trip back to the Buckeye state in an emigrant wagon. He says that he will return after a visit of a year. Mr. McLellan went into the Brainerd country twenty years ago, when all was new. He says that there were 1,000 Indians in and around Brainerd when he landed there.

"I have not been back to Ohio since I landed here," said Farmer McLellan, "but from what my friends write I know that this is a much better state for the man of moderate means than Ohio. The Brainerd country will develop into a good farming country. Land will be worth a big price before many years."

## FLORA PLEADS GUILTY.

After Thinking the Matter over for a Short Time Mrs. Luco Decides That She was Disorderly.

This morning a hearing in Mrs. Flora Luco's case was had before Judge Mantor, and she decided after considering the matter that she would enter a plea of guilty to the charge of running a disorderly house.

Judge Mantor stated that he could not in view of the fact that she had changed her plea from that of not guilty to guilty, thus saving the expense of prosecution, give her the maximum, but on the other hand he did not feel that he could give her the minimum since she had plead not guilty yesterday, and he further admonished the defendant that should she be brought before the court again he would certainly not be as lenient with her as he had been in this case. The court imposed a fine of \$30.

This was paid by a friend of hers shortly after court was adjourned and it is understood that this same friend intends to marry Mrs. Luco as soon as she can secure a divorce from her better half. This will add chapter four to the checkered career of this Bavarian damsel.

## HOISTERS AND LOADERS STRIKE

All Quit Their Work on Bemidji Lake and Get Their Time At Once

ASKED FOR TEN DOLLAR RAISE

Boarding House Locked Up And Everything Is Now At A Standstill

Several of the men who have been working for the Minnesota & International on Bemidji Lake as hoisters and loaders are in the city today and they bring the news of a strike there late yesterday afternoon.

The men have all quit work, or rather have been let out, the boarding house closed and all the hoisting machinery is said to be at a standstill. The men made a demand for higher wages and it is said they all got their time and the business closed down. It is understood they were getting \$60 and struck for \$70 per month.

The M. & I. has the contract for hauling these logs down but more men will have to be secured before the work can be continued.

## None To Claim Him.

Late yesterday afternoon Andrew Markeson, who has been employed for some time by J. A. Long, in charge of the camp about nine miles from Hackensack, died at St. Joseph's hospital after a sickness of about ten days.

The funeral services were held this afternoon from the D. M. Clark & Co's morgue and he was given a respectable burial, but none of his relatives were present.

## New Athletic Organization.

Several young men of East Brainerd met last night and organized what will be known in the future as the Crescent Acrobatic and Athletic Association.

A. J. Winters was named as instructor and the boys will be put through a course of thorough training. Strange as it may seem there are a large number of young men who are nearly in the expert class of acrobats and they will go in the parade on Labor Day and will surprise everyone.

The new organization starts out under very favorable circumstances and the boys are very enthusiastic.

## Dr. P. H. Irish Married.

The Minneapolis papers give an account of a wedding which occurred in Minneapolis Monday morning which will be of interest to Brainerdites.

Dr. P. H. Irish, who formerly lived and practiced in this city, was married to a Miss Stella Richards, of Chatfield, Minn. Many friends of the genial doctor in this city will extend congratulations. He is now practicing medicine at Akeley and the young couple will make their home there.

## VAST IRRIGATION PROJECTS

Plans For Reclaiming Lands In the Arid Regions.

Plans have just been completed for two of the largest irrigation projects, writes the New York Post's correspondent from Phoenix, A. T. A company of southern Arizona and California capitalists has filed a claim upon 140,000 acres of desert government land in northern Yuma county on the Colorado river, and with 40,000 acres purchased from the Blythe estate they intend to turn the vast tract into farm land and put it under cultivation by turning upon it the waters of the Colorado. It is understood that \$250,000 will be paid for the Blythe land and that \$1,000,000 will be spent on a storage dam and canal system. Los Angeles, Yuma and San Diego capital is interested in the project. There is a project also on foot which involves the pumping of water for a very large area of land east of Phoenix. A company which controls the canals that supply the eastern end of the Salt River valley with water is placing a big electrical plant at the head waters of the canals, where there is a fall of over 20 feet. Here they intend to develop power to raise water enough from half a hundred wells to irrigate several thousand acres, as much land again as they can now supply from their canals.

It is a well known fact that under most of the desert lands in Arizona, where on the surface water is rarely seen, there is an apparently inexhaustible underground flow. The extremely high price of fuel, however, has heretofore been a bar to pumping water to the surface, and the introduction of electricity provides the promise of the reclamation of many miles of desert where canals cannot reach.

## COMMISSIONER'S PROCEEDINGS.

Proceedings of the Meeting of the Board Crow Wing County Commissioners, Meeting Held Aug. 6th.

1901.

[OFFICIAL.]

All members present. The minutes of previous meeting were read and approved.

On a motion duly carried, the resolution passed at July meeting, asking County Surveyor Whiteley to resign from the office of county surveyor, was reconsidered.

On motion duly carried, a petition to organize Town 45, Range 29, into a town and name the same Nokay Lake was read and on motion duly carried, same was granted.

Motion duly made and carried, that a steam heating plant be put in at the court house and county jail, and that the auditor be directed to advertise for bids for the putting in of said plant. Commissioners Erickson, Paine and chairman was appointed a committee of three with power to act.

Moved and duly carried, that a cement sidewalk be put in along west side of court house block, under the direction of above named committee, and that the auditor be directed to advertise for bids for said work.

The following report from the auditing committee was read: To the Honorable Board of County Commissioners, Crow Wing Co., Minn. Gentlemen:—

We, the auditing committee, beg leave to submit the following report, viz:

That on the first day of August, 1901, we examined the books and accounts of County Treasurer Frater, and found the following to be a true and correct statement of the county treasurer, to-wit:

Balance on hand July 31st,

1901 ..... \$45,139 70

Accounted for by treasurer as follows:

In First National Bank.....\$31,950 62

In Northern Pacific Bank.....13,023 64

Currency.....6 00

Paid for postage and expressage.....19 60

Orders on state treasury.....38 00

Postage stamps.....13

Silver, nickles and cents.....17 41

Checks.....84 30

Total .....\$45,139 70

A. MAHLUM,

W. A. M. JOHNSTON,

J. S. GARDNER,

Auditing Committee.

Report of overseer of poor farm for month of July read and accepted.

The following appropriations from the road and bridge fund were made: \$50 on Bay Lake and Deerwood road, under direction of Commissioner Maghan.

\$100 in favor of town treasurer of Dean Lake for bridges and approaches at sections 8 and 9, said town 46, range 29, to be expended under direction of Commissioner Maghan.

\$50 for corduroy at sections 16, 17, 20, 21, in town 46, range 29, to be expended under direction of Commissioner Maghan.

\$100 in favor of town treasurer town of Emily, for general road purposes.

On motion duly carried, the auditor was directed to notify J. M. Quinn and associates to repair bridge at outlet of Cullen Lake, and place same in as good condition as before removed.

## LARGEST SHIP AFLOAT.

Dimensions of the Giant White Star Liner Celtic.

COMFORT, NOT SPEED, HER MOTTO

Over an Eighth of a Mile Long. She Can Carry 3,194 Persons and a Cargo of 18,000 Tons—Extraordinary Deck Space—Hardly Any Seasickness on Board.

Seven sturdy tugs pulled into the White Star dock at New York the other morning the greatest steamship afloat, the first 20,000 ton vessel the world has ever seen—the Celtic, from Liverpool in 8 days and 46 minutes, with nothing more serious to mar her maiden voyage than the death on the second day out of a prize Ayrsdale terrier for which Foxhall Keene had just paid \$2,000.

Think of a building nine stories high, with a frontage of three and a half blocks on Fifth avenue, and you will get some idea of this biggest ship afloat, which came safely into port under command of Captain H. St. J. Lindsay, R. N. R., says a New York World staff correspondent who crossed on the Celtic.

An idea of this sea giant's size might be had, too, from the fact that, safely alongside her pier, she towered so high that her lowest open deck was above the level of the pier roof and no companionway could reach it. This difficulty was overcome by opening the bulkhead doors of the middle deck. At Liverpool the passengers had boarded her by a temporary stairway from the roof of the landing stage.

Though she brought over only 345 cabin passengers and 268 steerage passengers, the Celtic has accommodations for 2,850 passengers—350 first class, 110 second and the balance third, and in addition a crew of 335, in all 3,194 human beings. Still further idea of her size can be gained from her cargo capacity. The displacement at load draft is 38,220 tons, her gross tonnage 20,904 tons, and she can carry over 18,000 tons of actual cargo.

She is 700 feet long and 75 feet wide and has nine decks, known as the lower, upper, orlop, lower, middle, upper, bridge, upper bridge, boat and sun decks.

This giantess of the seas is a twin screw ship, built with every appliance for safety that human ingenuity has been able to devise. She has not been built, though, to break records of speed, but to break records for comfort.

All the first class rooms are amidships, and every room is practically an outside room and can have fresh air through its own window in practically any weather. Most of the rooms are more than twice the size of those usually found on steamers. Baths are as numerous as in a first class New York hotel.

The deck space for all classes is one of the extraordinary features of the new ship, the third class passengers having quite as good a deck space for all weather as first class passengers have. The first class deck space is much more than double that of any other ship. The top deck contains only the splendid library and smoking room, the next two decks the staterooms and the fourth deck the immense first class dining room and staterooms of both first and second class. The whole fifth deck is given up entirely to third class passengers, while on this deck on the Teutonic, for instance, are the first class dining room and a small number of expensive staterooms.

The second class accommodations are quite equal to those first class passengers had up to a few years ago and in nearly every respect are quite equal in comfort to first class. In fact, it is difficult to distinguish between first and second class quarters, the main difference being in decoration and situation.

The improvement in the third class or steerage accommodations is the striking feature of this notable ship. They are far better than the second of not more than a dozen years ago. Just imagine a passage in the steerage with the comforts of a large social room, with chairs and a piano; a large smoking room with seats; dining rooms, with a seat for every one; bathrooms and lavatories as complete as the first class passenger has, and with rooms for families better than the old second class, and you have not an immigrant's dream, but a Celtic reality. Everything is painted white, so that every part can be kept clean and bright looking.

One of the greatest comforts throughout the ship is the absence of heavy and unsuitable decoration. In the first and second class quarters the floors of the corridors, saloons and smoking rooms are laid with patent rubber flooring, a material upon which a slip is impossible and upon which the heaviest foot descends noiselessly.

The Celtic also demonstrates the marvelous accuracy of modern ship-building and the confidence not only of the builders, but of the public, that the new ship will do what is expected of her. With her only trial a four-hour sea test, the Celtic started on her maiden voyage of 3,000 miles with over 1,000 people on board. She is a 17 knot ship, and when in thorough working order expects to leave New York on Tuesday and arrive in Liverpool the following Wednesday. Her motto is "Comfort, not speed," and she attains her aim.

Seasickness was an almost unknown complaint on her, as she proved to be wonderfully steady with practically no cargo. The voyage was uneventful, with no very severe weather, though she was delayed by more than her share of fog.

## DEAD NUMBER EIGHT.

Believed All the Philadelphia Explosion Victims Are Recovered.

Philadelphia, Aug. 8.—Another body has been found in the ruins of Monday night's explosion on Locust street, making a total of eight known fatalities as the result of the disaster. Seven of the dead are colored. It is believed all the victims have now been recovered. The injured in the hospitals are doing well, although several of them are still in a dangerous condition.

The officials who are investigating the cause of the explosion found a 5-gallon oil can in the cellar of the Quigley grocery store. The walls of this cellar were blackened as if an explosion had occurred in it. Quigley claims that he had no gasoline in his building and that the can had probably been blown into his place by the force of the explosion.

## Increase the Artillery.

Washington, Aug. 8.—Under the instructions of Secretary Root that the artillery arm be increased one-sixth whenever 1,800 men have been recruited the war department has directed the issue of an order carrying out these instructions to date Aug. 6.

## Bringing Soldiers' Bodies Home.

Washington, Aug. 8.—The transport Hancock has sailed from Manila, also the Dix (formerly Samoa). The Dix has on board the remains of 313 soldiers which are being brought to the United States for burial.

## TELEGRAPHIC BREVITIES.

Ex-Governor William A. Newell of New Jersey is dying.

Sousa's Marine band will make a tour of Great Britain this autumn.

King Edward's court will assume full mourning for the Empress Frederick.

The gunboat Machias has been ordered to the isthmus of Panama to protect American interests.

Andrew Carnegie has been invited to become lord rector of the University of Aberdeen in succession to Lord Strathcona and Mount Royal.

## NEW STYLES IN COLLARS.

Low Fold Variety and Wings Again Coming into Favor.

It would not be misquoting those who may be accepted as authorities on the subject to state that collar styles show an inclination to most decided change, says The Haberdasher. For some years the fold collar has reigned supreme; every other style was a mere second proposition. Just as the manufacturers have learned how to make fold collars fashionably orders them to go to something else. The new mode favors low fold collars and wings. Of course the wing collars were not designed to take the place of fold collars, as one was distinctly a winter style and the other just as distinctly a summer style. The wide fold collar has been practically abandoned by the fine trade, and now 2½ inches is considered the limit except in the cheaper grades. The low fold collars are both sensible and slightly. They vary in width from one inch up to two inches—the 1½ and 1¾ being very popular. Square corners have the call in the lower collars and round corners in the higher styles. A style that is now being sold extensively in some of the best retail shops, but which has not yet appeared in any of the "brand" lines, is the fold collar that shows about half of the width of the cravat band. It is possible that this collar will shortly be introduced in the leading brands. It is a good style, both for summer and winter, as a large of a small cravat may be worn with it.

Nearly every house in Troy is preparing wing collars for fall trade. These will be solid collars, as the inserted wing was discarded as being inferior to the solid wing years ago. The new collar will show wings of moderate proportions. Poke collars will also be given prominence in the new lines. The idea of marking collars with the height as well as size has been taken up and will be made a feature in one or two of the most prominent brands. We think that this will be a great help to the consumer as well as the retailer. It will at least do away with the necessity for so many names.

## BIG TREE FOR BIG FAIR.

St. Louis Exposition Managers Will Transplant a Giant Red Oak.

For the Louisiana Purchase exposition an effort is to be made for the removal of a huge tree, root and branch, by water more than 1,000 miles from the wildest section of Arkansas to Forest park, in St. Louis, says the New York Times. The tree is a red oak, 100 feet high and 12 feet in diameter at the base. It stands in the forest about two miles southeast of Elgin, Ark., and one mile from the bank of Black river.

The first thing to be accomplished is the construction of a double tramway with the tracks 30 feet apart from the tree to the river, where it will be floated and towed to St. Louis. It is estimated that this will occupy six months. The tree will be dug up by the roots instead of cut in the usual manner, and none of its branches will be trimmed, but will be put on exhibition just as it now stands in the woods.

## Remodeling a Crown.

"Uneasy lies the head that wears a crown," especially if the latter doesn't fit as comfortably as a fleece lined nightcap. Edward VII is to have the crown made over, says the Boston Herald, so as to make it agree with the individual bumps which England's new king brings to the throne.

## WILL DIG RUSSIAN GOLD

American Syndicate Granted Vast Mining Concession.

OSAR INTERESTED IN THE MATTER

The Tract in the South Ural Mountains, Near Irkutsk, Covers Eleven Hundred Square Miles and Is Supposed to Be the Richest in Minerals of Any in Russia.

Arrangements were recently completed at the Waldorf-Astoria hotel for the development on a vast scale by American and French capital and engineers of 1,100 square miles of gold, silver, copper and platinum bearing mineral lands in the south Ural mountains, Russia, says the New York Tribune. The tract is on the railroad leading from St. Petersburg to Irkutsk, near the latter place, and has been reserved as crown mineral lands by the czar's government. The parties appearing in the transaction at the Waldorf-Astoria were Professor George A. Treadwell, a metallurgist, living at the Waldorf-Astoria, and friends of Paul Annasoff, one of the builders and at present an associate manager of the Transiberian railway. The czar himself has taken a keen interest in the negotiations, as the development of this imperial mineral tract is expected to have an important bearing on mining enterprises throughout the Russian empire.

When Mr. Treadwell was seen at the office of his counsel, Walter S. Logan, he said:

"Parties interested in developing this crown tract have been working for three years to get the concession. I am in hopes that control of the enterprise will remain in the hands of Americans, but it is too early to tell about that, as a number of Frenchmen are going to furnish part of the capital. Under the terms of the contract we are to pay \$800,000 in cash for the concession and a tax of 4 per cent on all the gold produced. The tract is supposed to be the richest in minerals of any in Russia. I have made arrangements to go to Russia in October to decide what is needed in the way of machinery. I have been on the concession and know something about it. We shall mine with hydraulic machinery as well as build smelters. The copper is rather high grade. I expect to be gone till after the first of next year. Mr. Annasoff was one of the builders of the Siberian railroad. His father is in charge of the armory in the heart of the Ural mountains where all the Russian sabers are made. The armory is put there to make it difficult for an invader to reach this particular source of supplies. The Russians are very much impressed by the success of American miners in Alaska. We are pretty close to Russia up there. They say if we can get the gold out of Alaska dirt and quartz we can do even better in the Ural, where the climate is agreeable. The stamp mills for the mines will be bought in this country and will be of the type used in South Africa. They are styled 1,250 pound stamps and handle four tons of quartz every 24 hours.

"The government has allowed mining in a general way to go on on this big tract in order to determine the value of the ores. Gradually they have closed out the concessionaires until now they are ready to have the mines worked with the latest improved machinery and on a large scale. I expect it will require a company capitalized at perhaps \$25,000,000 to carry out the plans of the syndicate. Engineers who have gone over the territory have been impressed by its resources."

"Is not Senator Clark of Montana trying to secure a concession in the Ural mountains?" Mr. Treadwell was asked.

"Only a subconcession," replied Mr. Treadwell. "He is trying to obtain a renewal of a subconcession which terminated 12 years ago."

Professor Treadwell is a native of Maine. He has spent the greater part of his life on the Pacific coast. He at one time owned an interest in Senator Clark's United Verde copper mine in Arizona. Lately he has worked copper and silver mines in Arizona and Mexico. He recommended Mr. Craig, the American engineer in charge of the Russian mines west of Vladivostok, to the Russian government when it was decided to develop the mines there. Since then Mr. Treadwell has been on cordial terms with the mining authorities in Russia.

## Refused \$1,500 For One Log.

Near the southern edge of this country is a walnut log for which \$1,500 was recently refused, says a despatch from Greencastle, Ind., to the Indianapolis News. It was found by a man who was making an excavation in the bank of a creek, and who, realizing partially the value of his discovery, went to the owner of the land and secured possession of the piece of timber for \$75. He dug it out of the sand and clay, and a lumberman who examined it offered the price first mentioned. The owner asked \$1,800. The timber has been covered for possibly centuries, and the wood is as black and hard as mahogany.

## A Greater Holland.

A measure has been proposed in the states general of the Netherlands to close the Zuyder Zee by a dike running from the North Holland coast to the island of Wieringen and thence to the Frisian coast and to drain parts of the closed sea, says Sell's Commercial Intelligence. The plan involves the recovery in 18 years of 46,500 hectares (114,901½ acres) of fertile land. The indemnity to be paid to the Zuyder Zee fishermen is estimated at £370,000. The total cost is estimated at £8,000,000. It is intended to call this twelfth province of the Netherlands Wilhelminaland.

## MAY ASK ANNEXATION.

Cubans Give Warning to American Sugar and Tobacco Interests.

Havana, Aug. 8.—The Union of Tobacco Growers was asked recently by the Merchants' union to express an opinion on the duty levied in the United States against tobacco. The reply was that the duty on cigars should be reduced to \$2.50 per 100 irrespective of value, and the duties on fillers and wrappers should be reduced to 20 and 25 cents, respectively, per pound. A long preamble declares that if Cuba does not obtain concessions to which she has a perfect right, in view of the fact that she is under the economic as well as the political protection of the United States, she should ask for annexation.

"This the United States would grant," the preamble goes on to say, "as it would be in conformity with the desire of a majority of the American people. Thus the successful opposition of the United States in granting concessions to Cuba would only result in the ruin of those interests, since with annexation Cuba would have free trade and this would mean the overthrow of the sugar and tobacco industries in the States."

## GREAT FLOODS IN CHINA.

Overflowing of the Yang-Tse Causes the Death of Many Thousands.

Victoria, B. C., Aug. 8.—Great floods caused by the overflowing of the Yang-Tse have caused the death of many thousands in China. The river has risen 40 feet and for hundreds of miles the country is a great lake with only tops of trees and an occasional roof showing. At Anking the town is flooded, some of the houses to their roofs. At Kiu Kiang the native town is flooded and two feet of water stands in the foreign settlements. Lower down the river towards Swu Hue the destruction was greater and boatmen estimate that 20,000 were drowned in the district. Chong Teh was wiped away by floods and 10,000 drowned there, and many other points have been inundated, involving awful loss of life and great destruction to property. It was feared an embankment built by Chong Cheh Tung near Wu Chang would break and cause a drowning of hundreds of thousands.

## MORE UNIONS QUIT.

Sand Teamsters and Marine Firemen Join San Francisco Strike.

San Francisco, Aug. 8.—The day's feature in the local strike was the walkout of 500 sand teamsters and all the firemen of the Pacific Coast company's vessels in port. By the strike of the sand teamsters the hauling of building material is brought to a standstill, save in a few instances where contractors have their own teams. The strike of the Pacific Coast Steamship firemen was unexpected by the steamship people, who had made no preparations to obtain non-union men. The striking firemen say that after mature deliberation they find it necessary to join their fortunes with the other federations who are striking for the principle of unionism. Filipino crews have been secured for the South American steamers City of Sydney and Colon.

## NON-RESIDENT ALIENS.

Colorado Judge Decides They Have No Standing in the Courts.

Denver, Aug. 8.—International complications have arisen between the United States and Italy on account of the decision of a court that a non-resident alien is not entitled to sue for damages in the courts of Colorado.

Several months ago Fenice Ferrarao, an Italian woman living in Italy, brought suit for \$5,000 damages against the Aurie Mining company in the courts of Hinsdale county for the violent death of her husband, Peter Ferrarao, in the Ute and Uray mine near Lake City.

The suit was transferred to the court of Pueblo county and there the decision was rendered that a non-resident alien had no right to sue for damages in the state. Mrs. Ferrarao took the matter to the Italian consul Joseph Cuneo, who has forwarded papers in the case to Washington.

## MILLER GOES TO CHICAGO.

Traffic Manager of Burlington, Northern Pacific and Great Northern.

Chicago, Aug. 8.—Darius Miller, second vice president of the Great Northern, is in Chicago completing arrangements for coming here permanently as the traffic director of the Burlington, the Great Northern and Northern Pacific. He is to occupy the same relation to the Northern lines as Mr. Stubbs to the Harriman lines. It is understood that the two traffic directors will act in harmony with the traffic officials of other lines and in such a way that there will in effect be a traffic board which shall have the duty of smoothing over and adjusting all the difficulties which may arise between Western lines.

## A YOUTHFUL MURDERER.

Glen Garner Kills His Playmate for \$7.50 at Lyons, Kan.

McPherson, Kan., Aug. 8.—Glen Gardner of this town was arrested here and taken to Lyons, Kan., charged with the murder of his friend, George Smalley. Gardner, who is 17 years old, is charged with killing Smalley, about the same age, for his money and then hiding the body in a straw stack. He confessed his crime. Smalley had \$7.50 in money and it was this which young Gardner wanted. He beat Smalley to death with a club.

## LARGEST SHIP AFLOAT.

Dimensions of the Giant White Star Liner Celtic.

### COMFORT, NOT SPEED, HER MOTTO

Over an Eighth of a Mile Long, She Can Carry 3,194 Persons and a Cargo of 18,000 Tons—Extraordinary Deck Space—Hardly Any Seakickness on Board.

Seven sturdy tugs pulled into the White Star dock at New York the other morning the greatest steamship afloat, the first 20,000 ton vessel the world has ever seen—the Celtic, from Liverpool in 8 days and 46 minutes, with nothing more serious to mar her maiden voyage than the death on the second day out of a prize Ayrsdale terrier for which Foxhall Keene had just paid \$2,000.

Think of a building nine stories high, with a frontage of three and a half blocks on Fifth avenue, and you will get some idea of this biggest ship afloat, which came safely into port under command of Captain H. St. J. Lindsay, R. N. R., says a New York World staff correspondent who crossed on the Celtic.

An idea of this sea giantess' size might be had, too, from the fact that, safely alongside her pier, she towered so high that her lowest open deck was above the level of the pier roof and no companionway could reach it. This difficulty was overcome by opening the bulkhead doors of the middle deck. At Liverpool the passengers had boarded her by a temporary stairway from the roof of the landing stage.

Though she brought over only 345 cabin passengers and 268 steerage passengers, the Celtic has accommodations for 2,850 passengers—350 first class, 110 second and the balance third, and in addition a crew of 335, in all 3,194 human beings. Still further idea of her size can be gained from her cargo capacity. The displacement at load draft is 38,220 tons, her gross tonnage 20,904 tons, and she can carry over 18,000 tons of actual cargo.

She is 700 feet long and 75 feet wide and has nine decks, known as the lower, upper, orlop, lower, middle, upper, bridge, upper bridge, boat and sun decks.

This giantess of the seas is a twin screw ship, built with every appliance for safety that human ingenuity has been able to devise. She has not been built, though, to break records of speed, but to break records for comfort.

All the first class rooms are amidships, and every room is practically an outside room and can have fresh air through its own window in practically any weather. Most of the rooms are more than twice the size of those usually found on steamers. Baths are as numerous as in a first class New York hotel.

The deck space for all classes is one of the extraordinary features of the new ship, the third class passengers having quite as good a deck space for all weather as first class passengers have. The first class deck space is much more than double that of any other ship. The top deck contains only the splendid library and smoking room, the next two decks the staterooms and the fourth deck the immense first class dining room and staterooms of both first and second class. The whole fifth deck is given up entirely to third class passengers, while on this deck on the Teutonic, for instance, are the first class dining room and a small number of expensive staterooms.

The second class accommodations are quite equal to those first class passengers had up to a few years ago and in nearly every respect are quite equal in comfort to first class. In fact, it is difficult to distinguish between first and second class quarters, the main difference being in decoration and situation.

The improvement in the third class or steerage accommodations is the striking feature of this notable ship. They are far better than the second or not more than a dozen years ago. Just imagine a passage in the steerage with the comforts of a large social room, with chairs and a piano; a large smoking room with seats; dining rooms, with a seat for every one; bathrooms and lavatories as complete as the first class passenger has, and with rooms for families better than the old second class, and you have not an immigrant's dream, but a Celtic reality. Everything is painted white, so that every part can be kept clean and bright looking.

One of the greatest comforts throughout the ship is the absence of heavy and unsuitable decoration. In the first and second class quarters the floors of the corridors, saloons and smoking rooms are laid with patent rubber flooring, a material upon which a ship is impossible and upon which the heaviest foot descends noiselessly.

The Celtic also demonstrates the marvelous accuracy of modern shipbuilding and the confidence not only of the builders, but of the public, that the new ship will do what is expected of her. With her only trial a four-hour sea test, the Celtic started on her maiden voyage of 3,000 miles with over 1,000 people on board. She is a 17 knot ship, and when in thorough working order expects to leave New York on Tuesday and arrive in Liverpool the following Wednesday. Her motto is "Comfort, not speed," and she attains her aim.

Seasickness was an almost unknown complaint on her, as she proved to be wonderfully steady with practically no cargo. The voyage was uneventful, with no very severe weather, though she was delayed by more than her share of fog.

## DEAD NUMBER EIGHT.

Believed All the Philadelphia Explosion Victims Are Recovered.

Philadelphia, Aug. 8.—Another body has been found in the ruins of Monday night's explosion on Locust street, making a total of eight known fatalities as the result of the disaster. Seven of the dead are colored. It is believed all the victims have now been recovered. The injured in the hospitals are doing well, although several of them are still in a dangerous condition.

The officials who are investigating the cause of the explosion found a 5-gallon oil can in the cellar of the Quigley grocery store. The walls of this cellar were blackened as if an explosion had occurred in it. Quigley claims that he had no gasoline in his building and that the can had probably been blown into his place by the force of the explosion.

### Increase the Artillery.

Washington, Aug. 8.—Under the instructions of Secretary Root that the artillery arm be increased one-sixth whenever 1,800 men have been recruited for the war department has directed the issue of an order carrying out these instructions to date Aug. 6.

### Bringing Soldiers' Bodies Home.

Washington, Aug. 8.—The transport Hancock has sailed from Manila, also the Dix (formerly Samoa). The Dix has on board the remains of 313 soldiers which are being brought to the United States for burial.

### TELEGRAPHIC BREVITIES.

Ex-Governor William A. Newell of New Jersey is dying.

Sousa's Marine band will make a tour of Great Britain this autumn.

King Edward's court will assume full mourning for the Empress Frederick.

The gunboat Machias has been ordered to the isthmus of Panama to protect American interests.

Andrew Carnegie has been invited to become lord rector of the University of Aberdeen in succession to Lord Strathcona and Mount Royal.

### NEW STYLES IN COLLARS.

Low Fold Variety and Wings Again Coming Into Favor.

It would not be misquoting those who may be accepted as authorities on the subject to state that collar styles show an inclination to most decided change, says The Haberdasher. For some years the fold collar has reigned supreme; every other style was a mere second proposition. Just as the manufacturers have learned how to make fold collars fashionably orders them to go at something else. The new mode favors low fold collars and wings. Of course the wing collars were not designed to take the place of fold collars, as one was distinctly a winter style and the other just as distinctly a summer style. The wide fold collar has been practically abandoned by the fine trade, and now 2½ inches is considered the limit except in the cheaper grades. The low fold collars are both sensible and slightly. They vary in width from one inch up to two inches—the 1½ and 1¾ being very popular. Square corners have the call in the lower collars and round corners in the higher styles. A style that is now being sold extensively in some of the best retail shops, but which has not yet appeared in any of the "brand" lines, is the fold collar that shows about half of the width of the cravat band. It is possible that this collar will shortly be introduced in the leading brands. It is a good style, both for summer and winter, as a large of a small cravat may be worn with it.

Nearly every house in Troy is preparing wing collars for fall trade. These will be solid collars, as the inserted wing was discarded as being inferior to the solid wing years ago. The new collar will show wings of moderate proportions. Poke collars will also be given prominence in the new lines. The idea of marking collars with the height as well as size has been taken up and will be made a feature in one or two of the most prominent brands. We think that this will be a great help to the consumer as well as the retailer. It will at least do away with the necessity for so many names.

### BIG TREE FOR BIG FAIR.

St. Louis Exposition Managers Will Transplant a Giant Red Oak.

For the Louisiana Purchase exposition an effort is to be made for the removal of a huge tree, root and branch, by water more than 1,000 miles from the wildest section of Arkansas to Forest park, in St. Louis, says the New York Times. The tree is a red oak, 100 feet high and 12 feet in diameter at the base. It stands in the forest about two miles southeast of Elgin, Ark., and one mile from the bank of Black river.

The first thing to be accomplished is the construction of a double tramway with the tracks 30 feet apart from the tree to the river, where it will be floated and towed to St. Louis. It is estimated that this will occupy six months. The tree will be dug up by the roots instead of cut in the usual manner, and none of its branches will be trimmed, but will be put on exhibition just as it now stands in the woods.

### Remodeling a Crown.

"Uneasy lies the head that wears a crown," especially if the latter doesn't fit as comfortably as a fleece lined nightcap. Edward VII is to have the crown made over, says the Boston Herald, so as to make it agree with the individual bumps which England's new king brings to the throne.

## WILL DIG RUSSIAN GOLD

American Syndicate Granted Vast Mining Concession.

### OSAR INTERESTED IN THE MATTER

The Tract in the South Ural Mountains, Near Irkutsk, Covers Eleven Hundred Square Miles and Is Supposed to Be the Richest in Minerals of Any in Russia.

Arrangements were recently completed at the Walford-Astoria hotel for the development on a vast scale by American and French capital and engineers of 1,100 square miles of gold, silver, copper and platinum bearing mineral lands in the south Ural mountains, Russia, says the New York Tribune. The tract is on the railroad leading from St. Petersburg to Irkutsk, near the latter place, and has been reserved as crown mineral lands by the czar's government. The parties appearing in the transaction at the Walford-Astoria were Professor George A. Treadwell, a metallurgist, living at the Walford-Astoria, and friends of Paul Annasoff, one of the builders and at present an associate manager of the Transiberian railway. The czar himself has taken a keen interest in the negotiations, as the development of this imperial mineral tract is expected to have an important bearing on mining enterprises throughout the Russian empire.

When Mr. Treadwell was seen at the office of his counsel, Walter S. Logan, he said:

"Parties interested in developing this crown tract have been working for three years to get the concession. I am in hopes that control of the enterprise will remain in the hands of Americans, but it is too early to tell about that, as a number of Frenchmen are going to furnish part of the capital. Under the terms of the contract we are to pay \$800,000 in cash for the concession and a tax of 4 per cent on all the gold produced. The tract is supposed to be the richest in minerals of any in Russia. I have made arrangements to go to Russia in October to decide what is needed in the way of machinery. I have been on the concession and know something about it. We shall mine with hydraulic machinery as well as build smelters. The copper is rather high grade. I expect to be gone till after the first of next year. Mr. Annasoff was one of the builders of the Siberian railroad. His father is in charge of the army in the heart of the Ural mountains where all the Russian sabers are made. The army is put there to make it difficult for an invader to reach this particular source of supplies. The Russians are very much impressed by the success of American miners in Alaska. We are pretty close to Russia up there. They say if we can get the gold out of Alaska dirt and quartz we can do even better in the Urals, where the climate is agreeable. The stamp mills for the mines will be bought in this country and will be of the type used in South Africa. They are styled 1,250 pound stamps and handle four tons of quartz every 24 hours.

"The government has allowed mining in a general way to go on on this big tract in order to determine the value of the ores. Gradually they have closed out the concessionaires until now they are ready to have the mines worked with the latest improved machinery and on a large scale. I expect it will require a company capitalized at perhaps \$25,000,000 to carry out the plans of the syndicate. Engineers who have gone over the territory have been impressed by its resources."

"Is not Senator Clark of Montana trying to secure a concession in the Ural mountains?" Mr. Treadwell was asked.

"Only a subconcession," replied Mr. Treadwell. "He is trying to obtain a renewal of a subconcession which terminated 12 years ago."

Professor Treadwell is a native of Maine. He has spent the greater part of his life on the Pacific coast. He at one time owned an interest in Senator Clark's United Verde copper mine in Arizona. Latterly he has worked copper and silver mines in Arizona and Mexico. He recommended Mr. Craig, the American engineer in charge of the Russian mines west of Vladivostok, to the Russian government when it was decided to develop the mines there. Since then Mr. Treadwell has been on cordial terms with the mining authorities in Russia.

### Refused \$1,500 For One Log.

Near the southern edge of this county is a walnut log for which \$1,500 was recently refused, says a despatch from Greencastle, Ind., to the Indianapolis News. It was found by a man who was making an excavation in the bank of a creek, and who, realizing partially the value of his discovery, went to the owner of the land and secured possession of the piece of timber for \$75. He dug it out of the sand and clay, and a lumberman who examined it offered the price first mentioned. The owner asked \$1,800. The timber has been covered for possibly centuries, and the wood is as black and hard as mahogany.

### A Greater Holland.

A measure has been proposed in the states general of the Netherlands to close the Zuyder Zee by a dike running from the north Holland coast to the island of Wieringen and thence to the Frisian coast and to drain parts of the closed sea, says Sell's Commercial Intelligence. The plan involves the recovery in 18 years of 46,500 hectares (114,901½ acres) of fertile land. The indemnity to be paid to the Zuyder Zee fishermen is estimated at \$370,000. The total cost is estimated at \$8,000,000. It is intended to call this twelfth province of the Netherlands Wilhelminaalnd.

## MAY ASK ANNEXATION.

Cubans Give Warning to American Sugar and Tobacco Interests.

Havana, Aug. 8.—The Union of Tobacco Growers was asked recently by the Merchants' union to express an opinion on the duty levied in the United States against tobacco. The reply was that the duty on cigars should be reduced to \$2.50 per 100 irrespective of value, and the duties on fillers and wrappers should be reduced to 20 and 25 cents, respectively, per pound. A long preamble declares that if Cuba does not obtain concessions to which she has a perfect right, in view of the fact that she is under the economic as well as the political protection of the United States, she should ask for annexation.

"This the United States would grant," the preamble goes on to say, "as it would be in conformity with the desire of a majority of the American people. Thus the successful opposition of the sugar and tobacco interests of the United States in granting concessions to Cuba would only result in the ruin of those interests, since with annexation Cuba would have free trade and this would mean the overthrow of the sugar and tobacco industries in the States."

### GREAT FLOODS IN CHINA.

Overflowing of the Yang-Tse Causes the Death of Many Thousands.

Victoria, B. C., Aug. 8.—Great floods caused by the overflowing of the Yang-Tse have caused the death of many thousands in China. The river has risen 40 feet and for hundreds of miles the country is a great lake with only tops of trees and an occasional roof showing. At Anking the town is flooded, some of the houses to their roofs. At Kin Kiang the native town is flooded and two feet of water stands in the foreign settlements. ## LARGEST SHIP AFLOAT.

Dimensions of the Giant White Star Liner Celtic.

### COMFORT, NOT SPEED, HER MOTTO

Over an Eighth of a Mile Long. She Can Carry 3,194 Persons and a Cargo of 15,000 Tons—Extraordinary Deck Space—Hardly Any Seasickness on Board.

Seven sturdy tugs pulled into the White Star dock at New York the other morning the greatest steamship afloat, the first 20,000 ton vessel the world has ever seen—the Celtic, from Liverpool in 8 days and 46 minutes, with nothing more serious to mar her maiden voyage than the death on the second day out of a prize Ayrshire terrier for which Foxhall Keene had just paid \$2,000.

Think of a building nine stories high, with a frontage of three and a half blocks on Fifth avenue, and you will get some idea of this biggest ship afloat, which came safely into port under command of Captain H. St. J. Lindsay, R. N. R., says a New York World staff correspondent who crossed on the Celtic.

An idea of this sea giantess' size might be had, too, from the fact that, safely alongside her pier, she towered so high that her lowest open deck was above the level of the pier roof and no companionway could reach it. This difficulty was overcome by opening the bulkhead doors of the middle deck. At Liverpool the passengers had boarded her by a temporary stairway from the roof of the landing stage.

Though she brought over only 345 cabin passengers and 298 steerage passengers, the Celtic has accommodations for 2,850 passengers—350 first class, 110 second and the balance third, and in addition a crew of 335, in all 3,194 human beings. Still further idea of her size can be gained from her cargo capacity. The displacement at load draft is 38,220 tons, her gross tonnage 20,004 tons, and she can carry over 18,000 tons of actual cargo.

She is 700 feet long and 75 feet wide and has nine decks, known as the lower deck, orlop, lower, middle, upper, bridge, upper bridge, boat and sun decks.

This giantess of the seas is a twin screw ship, built with every appliance for safety that human ingenuity has been able to devise. She has not been built, though, to break records of speed, but to break records for comfort.

All the first class rooms are amidships, and every room is practically an outside room and can have fresh air through its own window in practically any weather. Most of the rooms are more than twice the size of those usually found on steamers. Baths are as numerous as in a first class New York hotel.

The deck space for all classes is one of the extraordinary features of the new ship, the third class passengers having quite as good a deck space for all weather as first class passengers have. The first class deck space is much more than double that of any other ship. The top deck contains only the splendid library and smoking room, the next two decks the staterooms and the fourth deck the immense first class dining room and staterooms of both first and second class. The whole fifth deck is given up entirely to third class passengers, while on this deck on the Teutonic, for instance, are the first class dining room and a small number of expensive staterooms.

The second class accommodations are quite equal to those first class passengers had up to a few years ago and in nearly every respect are quite equal in comfort to first class. In fact, it is difficult to distinguish between first and second class quarters, the main difference being in decoration and situation.

The improvement in the third class or steerage accommodations is the striking feature of this notable ship. They are far better than the second of not more than a dozen years ago. Just imagine a passage in the steerage with the comforts of a large social room, with chairs and a piano; a large smoking room with seats; dining rooms, with a seat for every one; bathrooms and lavatories as complete as the first class passenger has, and with rooms for families better than the old second class, and you have not an immigrant's dream, but a Celtic reality. Everything is painted white, so that every part can be kept clean and bright looking.

One of the greatest comforts throughout the ship is the absence of heavy and unsuitable decoration. In the first and second class quarters the floors of the corridors, saloons and smoking rooms are laid with patent rubber flooring, a material upon which a ship is impossible and upon which the heaviest foot descends noiselessly.

The Celtic also demonstrates the marvelous accuracy of modern ship-building and the confidence not only of the builders, but of the public, that the new ship will do what is expected of her. With her only trial four-hour sea test, the Celtic started on her maiden voyage of 3,000 miles with over 1,000 people on board. She is a 17 knot ship, and when in thorough working order expects to leave New York on Tuesday and arrive in Liverpool the following Wednesday. Her motto is "Comfort, not speed," and she attains her aim.

Seasickness was an almost unknown complaint on her, as she proved to be wonderfully steady with practically no cargo. The voyage was uneventful, with no very severe weather, though she was delayed by more than her share of fog.

### DEAD NUMBER EIGHT.

Believed All the Philadelphia Explosion Victims Are Recovered.

Philadelphia, Aug. 8.—Another body has been found in the ruins of Monday night's explosion on Locust street, making a total of eight known fatalities as the result of the disaster. Seven of the dead are colored. It is believed all the victims have now been recovered. The injured in the hospitals are doing well, although several of them are still in a dangerous condition.

The officials who are investigating the cause of the explosion found a 5-gallon oil can in the cellar of the Quigley grocery store. The walls of this cellar were blackened as if an explosion had occurred in it. Quigley claims that he had no gasoline in his building and that the can had probably been blown into his place by the force of the explosion.

### Increase the Artillery.

Washington, Aug. 8.—Under the instructions of Secretary Root that the artillery arm be increased one-sixth whenever 1,800 men have been recruited the war department has directed the issue of an order carrying out these instructions to date Aug. 6.

### Bringing Soldiers' Bodies Home.

Washington, Aug. 8.—The transport Hancock has sailed from Manila, also the Dix (formerly Samoa). The Dix has on board the remains of 313 soldiers which are being brought to the United States for burial.

### TELEGRAPHIC BREVITIES.

Ex-Governor William A. Newell of New Jersey is dying.

Sousa's Marine band will make a tour of Great Britain this autumn.

King Edward's court will assume full mourning for the Empress Frederick.

The gunboat Machias has been ordered to the isthmus of Panama to protect American interests.

Andrew Carnegie has been invited to become lord rector of the University of Aberdeen in succession to Lord Strathcona and Mount Royal.

### NEW STYLES IN COLLARS.

Low Fold Variety and Wings Again Coming into Favor.

It would not be misquoting those who may be accepted as authorities on the subject to state that collar styles show an inclination to most decided change, says The Haberdasher. For some years the fold collar has reigned supreme; every other style was a mere second proposition. Just as the manufacturers have learned how to make fold collars fashionably, they are now going to something else. The new mode favors low fold collars and wings. Of course the wing collars were not designed to take the place of fold collars, as one was distinctly a winter style and the other just as distinctly a summer style. The wide fold collar has been practically abandoned by the fine trade, and now 2½ inches is considered the limit except in the cheaper grades. The low fold collars are both sensible and slightly. They vary in width from one inch up to two inches—the 1½ and 1¾ being very popular. Square corners have the call in the lower collars and round corners in the higher styles. A style that is now being sold extensively in some of the best retail shops, but which has not yet appeared in any of the "brand" lines, is the fold collar that shows about half of the width of the cravat band. It is possible that this collar will shortly be introduced in the leading brands. It is a good style, both for summer and winter, as a large of a small cravat may be worn with it.

Nearly every house in Troy is preparing wing collars for fall trade. The size will be sold collars, as the inserted wing was discarded as being inferior to the solid wing years ago. The new collar will show wings of moderate proportions. Poke collars will also be given prominence in the new lines. The idea of marking collars with the height as well as size has been taken up and will be made a feature in one or two of the most prominent brands. We think that this will be a great help to the consumer as well as the retailer. It will at least do away with the necessity for so many names.

### BIG TREE FOR BIG FAIR.

St. Louis Exposition Managers Will Transplant a Giant Red Oak.

For the Louisiana Purchase exposition an effort is to be made for the removal of a huge tree, root and branch, by water more than 1,000 miles from the wildest section of Arkansas to Forest park, in St. Louis, says the New York Times. The tree is a red oak, 100 feet high and 12 feet in diameter at the base. It stands in the forest about two miles southeast of Elgin, Ark., and one mile from the bank of Black river.

The first thing to be accomplished is the construction of a double tramway with the tracks 30 feet apart from the tree to the river, where it will be floated and towed to St. Louis. It is estimated that this will occupy six months. The tree will be dug up by the roots instead of cut in the usual manner, and none of its branches will be trimmed, but will be put on exhibition just as it now stands in the woods.

### Remodeling a Crown.

"Uneasy lies the head that wears a crown," especially if the latter doesn't fit as comfortably as a fleece lined nightcap. Edward VII is to have the crown made over, says the Boston Herald, so as to make it agree with the individual bumps which England's new king brings to the throne.

## WILL DIG RUSSIAN GOLD

American Syndicate Granted Vast Mining Concession.

### OSAR INTERESTED IN THE MATTER

The Tract in the South Ural Mountains, Near Irkutsk, Covers Eleven Hundred Square Miles and Is Supposed to Be the Richest in Minerals of Any in Russia.

Arrangements were recently completed at the Waldorf-Astoria hotel for the development on a vast scale by American and French capital and engineers of 1,100 square miles of gold, silver, copper and platinum bearing mineral lands in the south Ural mountains, Russia, says the New York Tribune. The tract is on the railroad leading from St. Petersburg to Irkutsk, near the latter place, and has been reserved as crown mineral lands by the czar's government. The parties appearing in the transaction at the Waldorf-Astoria were Professor George A. Treadwell, a metallurgist, living at the Waldorf-Astoria, and friends of Paul Annasoff, one of the builders and at present an associate manager of the Transiberian railway. The czar himself has taken a keen interest in the negotiations, as the development of this imperial mineral tract is expected to have an important bearing on mining enterprises throughout the Russian empire.

When Mr. Treadwell was seen at the office of his counsel, Walter S. Logan, he said:

"Parties interested in developing this crown tract have been working for three years to get the concession. I am in hopes that control of the enterprise will remain in the hands of Americans, but it is too early to tell about that, as a number of Frenchmen are going to furnish part of the capital. Under the terms of the contract we are to pay \$800,000 in cash for the concession and a tax of 4 per cent on all the gold produced. The tract is supposed to be the richest in minerals of any in Russia. I have made arrangements to go to Russia in October to decide what is needed in the way of machinery. I have been on the concession and know something about it. We shall mine with hydraulic machinery as well as build smelters. The copper is rather high grade. I expect to be gone till after the first of next year. Mr. Annasoff was one of the builders of the Siberian railroad. His father is in charge of the armory in the heart of the Ural mountains where all the Russian sabers are made. The armory is put there to make it difficult for an invader to reach this particular source of supplies. The Russians are very much impressed by the success of American miners in Alaska. We are pretty close to Russia up there. They say if we can get the gold out of Alaska dirt and quartz we can do even better in the Ural, where the climate is agreeable. The stamp mills for the mines will be of the type used in South Africa. They are styled 1,250 pound stamps and handle four tons of quartz every 24 hours.

"The government has allowed mining in a general way to go on on this big tract in order to determine the value of the ores. Gradually they have closed out the concessionaires until now they are ready to have the mines worked with the latest improved machinery and on a large scale. I expect it will require a company capitalized at perhaps \$25,000,000 to carry out the plans of the syndicate. Engineers who have gone over the territory have been impressed by its resources."

"Is not Senator Clark of Montana trying to secure a concession in the Ural mountains?" Mr. Treadwell was asked.

"Only a subconcession," replied Mr. Treadwell. "He is trying to obtain a renewal of a subconcession which terminated 12 years ago."

Professor Treadwell is a native of Maine. He has spent the greater part of his life on the Pacific coast. He at one time owned an interest in Senator Clark's United Verde copper mine in Arizona. Lately he has worked copper and silver mines in Arizona and Mexico. He recommended Mr. Craig, the American engineer in charge of the Russian mines west of Vladivostok, to the Russian government when it was decided to develop the mines there. Since then Mr. Treadwell has been on cordial terms with the mining authorities in Russia.

### Refused \$1,500 For One Log.

Near the southern edge of this county is a walnut log for which \$1,500 was recently refused, says a despatch from Greencastle, Ind., to the Indianapolis News. It was found by a man who was making an excavation in the bank of a creek, and who, realizing partially the value of his discovery, went to the owner of the land and secured possession of the piece of timber for \$75. He dug it out of the sand and clay, and a lumberman who examined it offered the price first mentioned. The owner asked \$1,500. The timber has been covered for possibly centuries, and the wood is as black and hard as mahogany.

### A Greater Holland.

A measure has been proposed in the states general of the Netherlands to close the Zuyder Zee by a dike running from the north Holland coast to the island of Wieringen and thence to the Frisian coast and to drain parts of the closed sea, says Self's Commercial Intelligence. The plan involves the recovery in 18 years of 46,500 hectares (114,901½ acres) of fertile land. The indemnity to be paid to the Zuyder Zee fishermen is estimated at \$370,000. The total cost is estimated at \$8,000,000. It is intended to call this twelfth province of the Netherlands Wilhelminaland.

### MAY ASK ANNEXATION.

Cubans Give Warning to American Sugar and Tobacco Interests.

Havana, Aug. 8.—The Union of Tobacco Growers was asked recently by the Merchants' union to express an opinion on the duty levied in the United States against tobacco. The reply was that the duty on cigars should be reduced to \$2.50 per 100 irrespective of value, and the duties on fillers and wrappers should be reduced to 20 and 25 cents, respectively, per pound. A long preamble declares that if Cuba does not obtain concessions to which she has a perfect right, in view of the fact that she is under the economic as well as the political protection of the United States, she should ask for annexation.

"This the United States would grant," the preamble goes on to say, "as it would be in conformity with the desire of a majority of the American people. Thus the successful opposition of the sugar and tobacco interests of the United States in granting concessions to Cuba would only result in the ruin of those interests, since with annexation Cuba would have free trade and this would mean the overthrow of the sugar and tobacco industries in the States."

### GREAT FLOODS IN CHINA.

Overflowing of the Yang-Tse Causes the Death of Many Thousands.

Victoria, B. C., Aug. 8.—Great floods caused by the overflowing of the Yang-Tse have caused the death of many thousands in China. The river has risen 40 feet and for hundreds of miles the country is a great lake with only tops of trees and an occasional roof showing. At Anking the town is flooded, some of the houses to their roofs. At Kin Kiang the native town is flooded and two feet of water stands in the foreign settlements. Lower down the river towards Suu Hue the destruction was greater and boatmen estimate that 20,000 were drowned in the district. Chong Teh was wiped away by floods and 10,000 drowned there, and many other points have been inundated, involving awful loss of life and great destruction to property. It was feared an embankment built by Chong Cheh Tung near Wu Chang would break and cause a drowning of hundreds of thousands.

### MORE UNIONS QUIT.

Sand Teamsters and Marine Firemen Join San Francisco Strike.

San Francisco, Aug. 8.—The day's feature in the local strike was the walkout of 500 sand teamsters and all the firemen of the Pacific Coast company's vessels in port. By the strike of the sand teamsters the hauling of building material is brought to a standstill, save in a few instances where contractors have their own teams. The strike of the Pacific Coast Steamship firemen was unexpected by the steamship people, who had made no preparations to obtain non-union men. The striking firemen say that after mature deliberation they find it necessary to join their fortunes with the other federationists who are striking for the principle of unionism. Filipino crews have been secured for the South American steamers City of Sydney and Colon.

### NON-RESIDENT ALIENS.

Colorado Judge Decides They Have No Standing in the Courts.

Denver, Aug. 8.—International complications have arisen between the United States and Italy on account of the decision of a court that a non-resident alien is not entitled to sue for damages in the courts of Colorado.

Several months ago Fenice Ferrarao, an Italian woman living in Italy, brought suit for \$5,000 damages against the Aurie Mining company in the courts of Hinsdale county for the violent death of her husband, Peter Ferrarao, in the Ute and Uray mine near Lake City.

The suit was transferred to the court of Pueblo county and there the decision was rendered that a non-resident alien had no right to sue for damages in the state. Mrs. Ferrarao took the matter to the Italian consul Joseph Cuneo, who has forwarded papers in the case to Washington.

### MILLER GOES TO CHICAGO.

Traffic Manager of Burlington, Northern Pacific and Great Northern.

Chicago, Aug. 8.—Darius Miller, second vice president of the Great Northern, is in Chicago completing arrangements for coming here permanently as the traffic director of the Burlington, the Great Northern and Northern Pacific. He is to occupy the same relation to the Northern lines as Mr. Stubbs to the Harriman lines. It is understood that the two traffic directors will act in harmony with the traffic officials of other lines and in such a way that there will in effect be a traffic board which shall have the duty of smoothing over and adjusting all the difficulties which may arise between Western lines.

### A YOUTHFUL MURDERER.

Glen Garner Kills His Playmate for \$7.50 at Lyons, Kan.

McPherson, Kan., Aug. 8.—Glen Gardner of this town was arrested here and taken to Lyons, Kan., charged with the murder of his friend, George Smalley, Gardner, who is 17 years old, is charged with killing Smalley, about the same age, for his money and then hiding the body in a straw stack. He confessed his crime. Smalley had \$7.50 in money and it was this which young Gardner wanted. He beat Smalley to death with a club.

## J. R. SMITH, FIRE INSURANCE, and Real Estate Office.

We represent 15 of the best "Fire" Companies, and use special forms to fully protect our policy holders, at lowest rates. Choice bargains in

Real Estate, Houses to Rent, Loans Negotiated.

Call day or evening, Room 2, Sleeper block, Brainerd, Minn.

### SUMMER COMFORT.

Can only be secured when you send your summer clothes to a first class laundry. We do good laundry work all the time, and we take special pains with our work in the summer time, because we know it adds to the comfort of our customers and they appreciate it.
